\*This report reflects new information learned during the preparation of the 2025 annual report related to incidents that were pending at the time of the release of the quarterly reports for the 2025 calendar year.

\*\*Because children disclose abuse in different stages, it is common for children to report incidents months or even years after the incident occurred. Furthermore, in cases of alleged abuse involving non-verbal children, dates of alleged maltreatment are often difficult or impossible to determine.

\*\*\*This child was under jurisdiction in Wisconsin. The incident occurred outside of the state.
