# High-Income Payer Worksheet to Estimate Support 

## Important to Know

1. The worksheet only offers an estimate of what your support might be.
2. The use of the High-Income Payer formula is at the court's discretion. If the paying parent's income is $\$ 7,000 /$ month ( $\$ 84,000 /$ year) or more, the court may use the high-income payer formula.
3. The court may use the payer's gross income, ability to earn, or the income available for support.

- Gross income is defined as all income and earnings from all sources. This income may or may not be taxable. Income can be in the form of money, property, or services.
- Ability to earn considers the parent's job and wage history, health, education, and available job openings
- Income available for support is the gross income minus support for earlier obligations. The serial-family parent worksheet may be used to estimate a parent's income available for support.

4. The formula for high-income payers are

- The guidelines for the first $\$ 7,000$ month of income are:
o $\mathbf{1 7 \%}$ of income for 1 child
o $\mathbf{2 5 \%}$ of income for 2 children
o $\mathbf{2 9 \%}$ of income for 3 children
- $\mathbf{3 1 \%}$ of income for 4 children
o $\mathbf{3 4 \%}$ of income for 5 or more children
- The guidelines for the portion of income between $\$ 7,000 /$ month and $\$ 12,500 /$ month ( $\$ 84,000$ $\$ 150,000 /$ year) are:
o $\mathbf{1 4 \%}$ of income for 1 child
- $\mathbf{2 0 \%}$ of income for 2 children
- $\mathbf{2 3} \%$ of income for 3 children
- $\mathbf{2 5 \%}$ of income for 4 children
o $\mathbf{2 7 \%}$ of income for 5 or more children
- The guidelines for the portion of income that is more $\$ 12,500 /$ month ( $\$ 150,000 /$ year):
- $\mathbf{1 0 \%}$ of income for 1 child
- $\mathbf{1 5 \%}$ of income for 2 children
o $\mathbf{1 7 \%}$ of income for 3 children
o $\mathbf{1 9 \%}$ of income for 4 children
o $\mathbf{2 0 \%}$ of income for 5 or more children

## Please see DCF 150 for more details about High-Income Payer cases.

You can fill out this worksheet online or by hand. If you fill out the information online, you can print the completed worksheet.

High - Income Payer Cases Worksheet

| First \$7,000 of Monthly Income | $\begin{gathered} \text { Line } \\ 1 \end{gathered}$ | The first \$7,000 of payer's monthly income | \$7,000 |  |
| :---: | :---: | :---: | :---: | :---: |
|  | $\begin{gathered} \text { Line } \\ 2 \end{gathered}$ | Enter the percent based on the number of children below: <br> - For 1 child, enter $\mathbf{1 7 \%}$ <br> - For 2 children, enter $\mathbf{2 5 \%}$ <br> - For 3 children, enter $\mathbf{2 9 \%}$ <br> - For 4 children, enter $\mathbf{3 1 \%}$ <br> - For 5 or more children, enter $\mathbf{3 4 \%}$ | X | \% |
|  | $\begin{gathered} \text { Line } \\ 3 \end{gathered}$ | Multiply Line 1 by Line 2. | \$ |  |
| Monthly <br> Income <br> between <br> \$7,000 <br> and \$12,500 | $\begin{gathered} \text { Line } \\ 4 \end{gathered}$ | Subtract $\$ 7,000$ from the payer's monthly income. If the amount is more than $\$ 5,500$, enter $\$ 5,500$ | \$ |  |
|  | $\begin{gathered} \text { Line } \\ 5 \end{gathered}$ | Enter the percent based on the number of children below: <br> - For 1 child, enter $\mathbf{1 4 \%}$ <br> - For 2 children, enter $\mathbf{2 0 \%}$ <br> - For 3 children, enter $\mathbf{2 3 \%}$ <br> - For 4 children, enter $\mathbf{2 5 \%}$ <br> - For 5 or more children, enter $\mathbf{2 7 \%}$ | X | \% |
|  | $\begin{gathered} \text { Line } \\ 6 \end{gathered}$ | Multiply Line 4 by Line 5 | \$ |  |
|  | $\begin{gathered} \text { Line } \\ 7 \end{gathered}$ | Add Line 3 and Line 6 <br> This is the estimated support if the parent's monthly income is between $\$ 7,000$ and $\$ 12,500$. If the parent's monthly income is more than $\$ 12,500$, continue to Line 8 | \$ |  |
| Monthly <br> Income <br> of more <br> than <br> \$12,500 | $\begin{gathered} \text { Line } \\ 8 \end{gathered}$ | Subtract \$12,500 from the payer's monthly income. | \$ |  |
|  | $\begin{gathered} \text { Line } \\ 9 \end{gathered}$ | Enter the percent based on the number of children below: <br> - For 1 child, enter $\mathbf{1 0 \%}$ <br> - For 2 children, enter $\mathbf{1 5 \%}$ <br> - For 3 children, enter $\mathbf{1 7 \%}$ <br> - For 4 children, enter $\mathbf{1 9 \%}$ <br> - For 5 or more children, enter 20\% | X | \% |
|  | $\begin{gathered} \text { Line } \\ 10 \end{gathered}$ | Multiply Line 8 by Line 9 | \$ |  |
|  | $\begin{gathered} \text { Line } \\ 11 \end{gathered}$ | Add Line 7 and Line 10 <br> This is the estimated support if the paying parent's monthly income is more than $\$ 12,500$ | \$ |  |
