

AR Evaluation Post-Hoc Analysis: County Rates of Assignment (Quarterly Average)

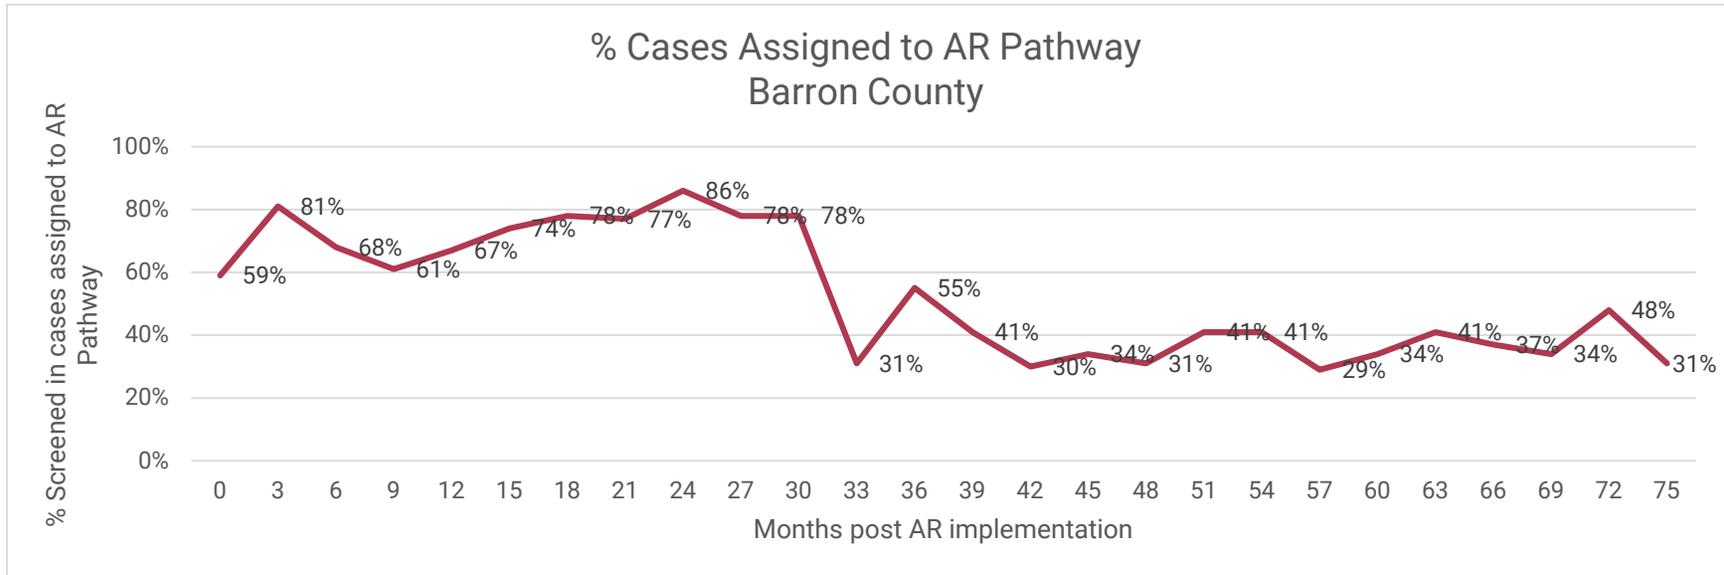

Grouped as follows:

- Decline over time:** Counties with 0-36 months average at least 5 percentage points higher than post 36-month state average: Barron; Calumet; Chippewa; Sauk.
 - Observation: These counties had above-average first year assignment rates.*
- Stable over time:** Counties with 0-36-month average within 5 percentage points of post-36-month state average: Douglas, Eau Claire, Jefferson, La Crosse, Langulade, Marathon, Pierce, Winnebago.
 - Observation: These counties hover in the 40-50% assignment rate.*
- Increase over time:** Counties with 0-36-month average at least 5 percentage points lower than post 36-month state average: Dodge, Green Lake; Waushara.
 - Observation: These counties had relatively low assignment rates in the first three to 6 months of implementation.*
- Too new for long term patterns:** Counties without post-36-month data (Cohort 4-5): Brown, Fond du Lac, Manitowoc, Outagamie, Racine, Waupaca.

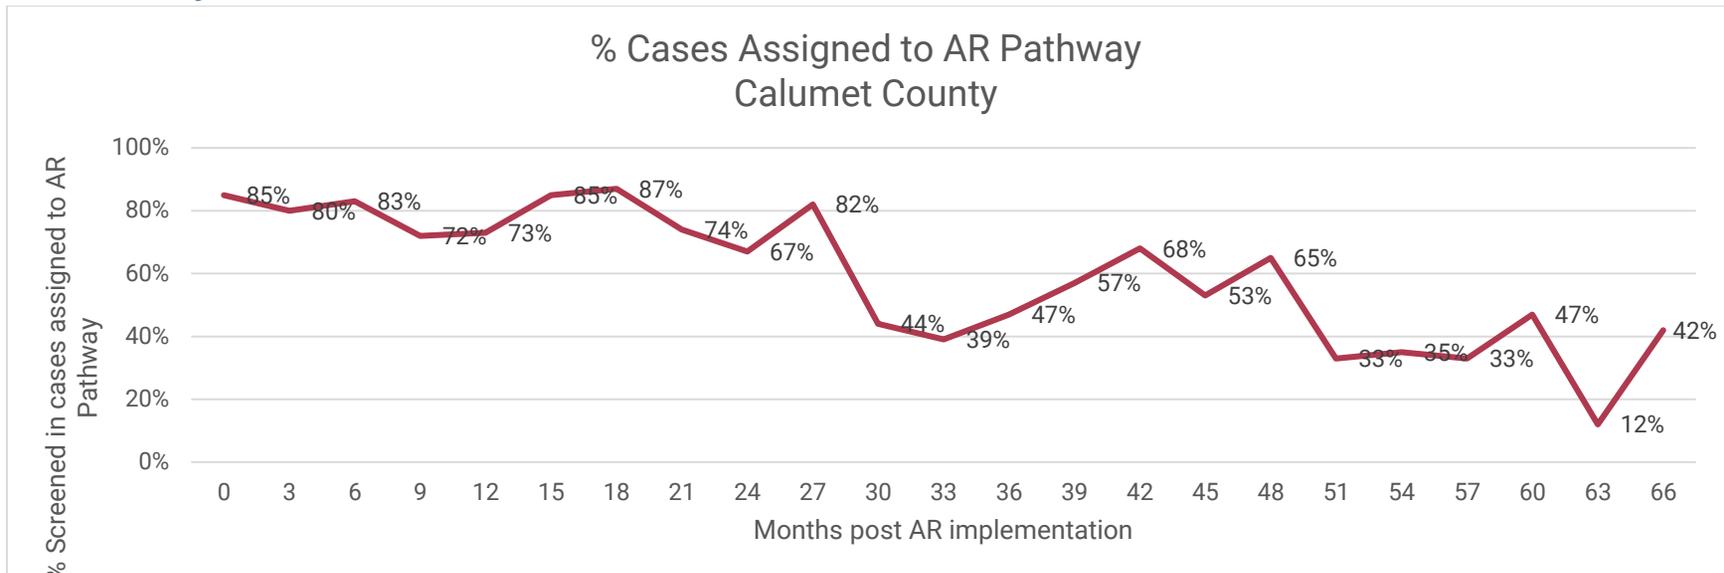

Counties with AR Assignment Rates that Decline Over Time

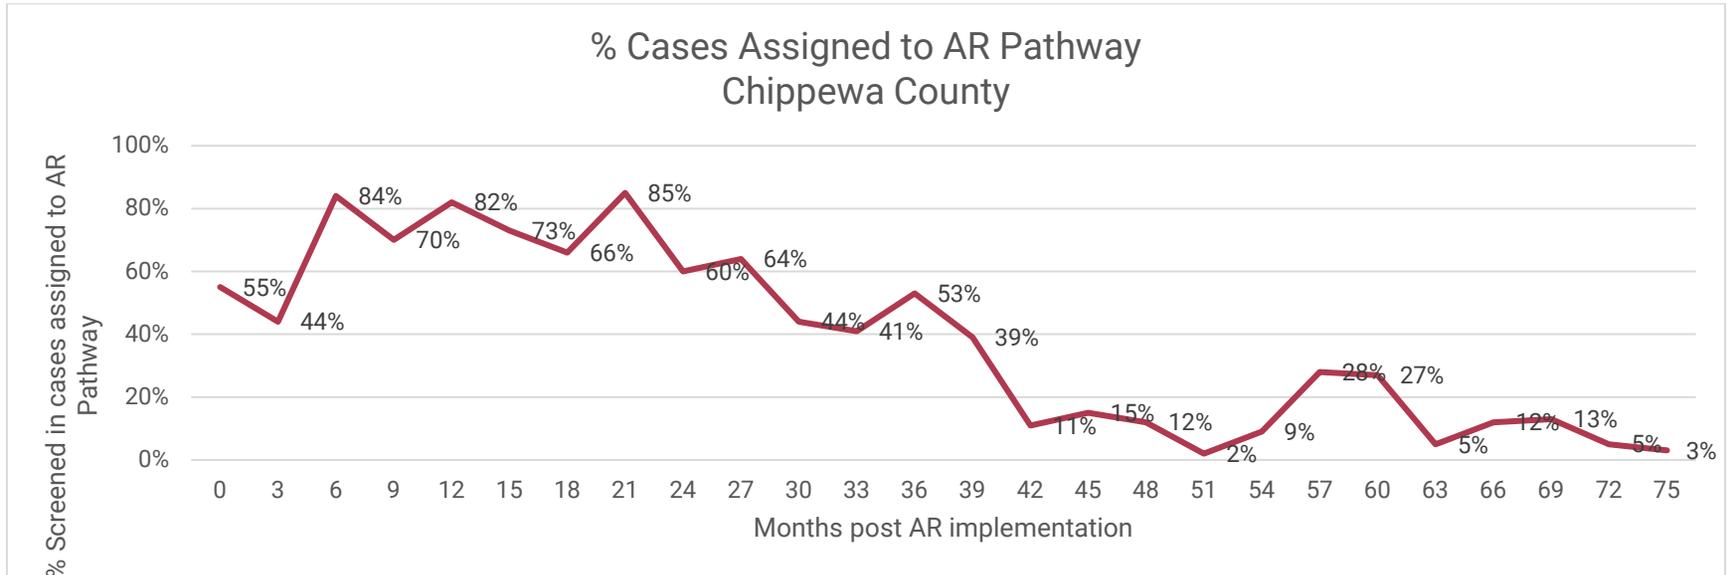

Barron County

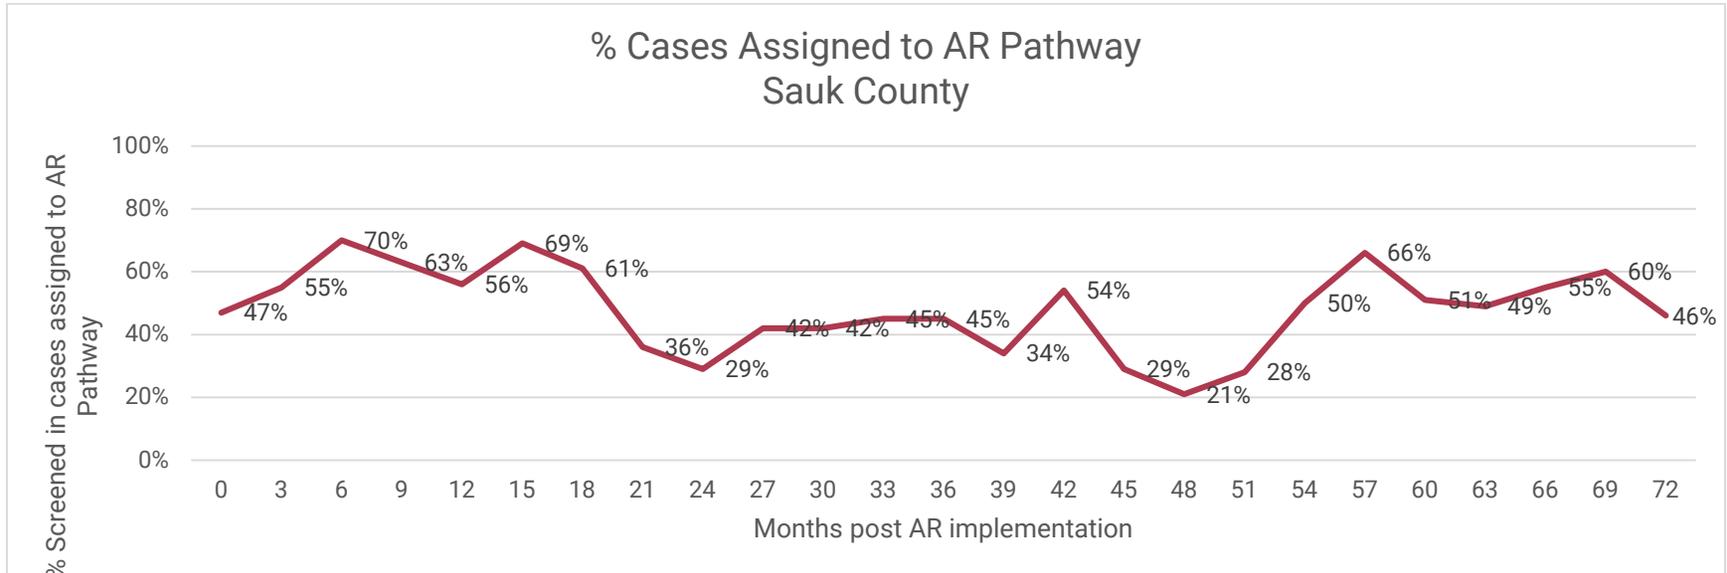

Calumet County

Chippewa County

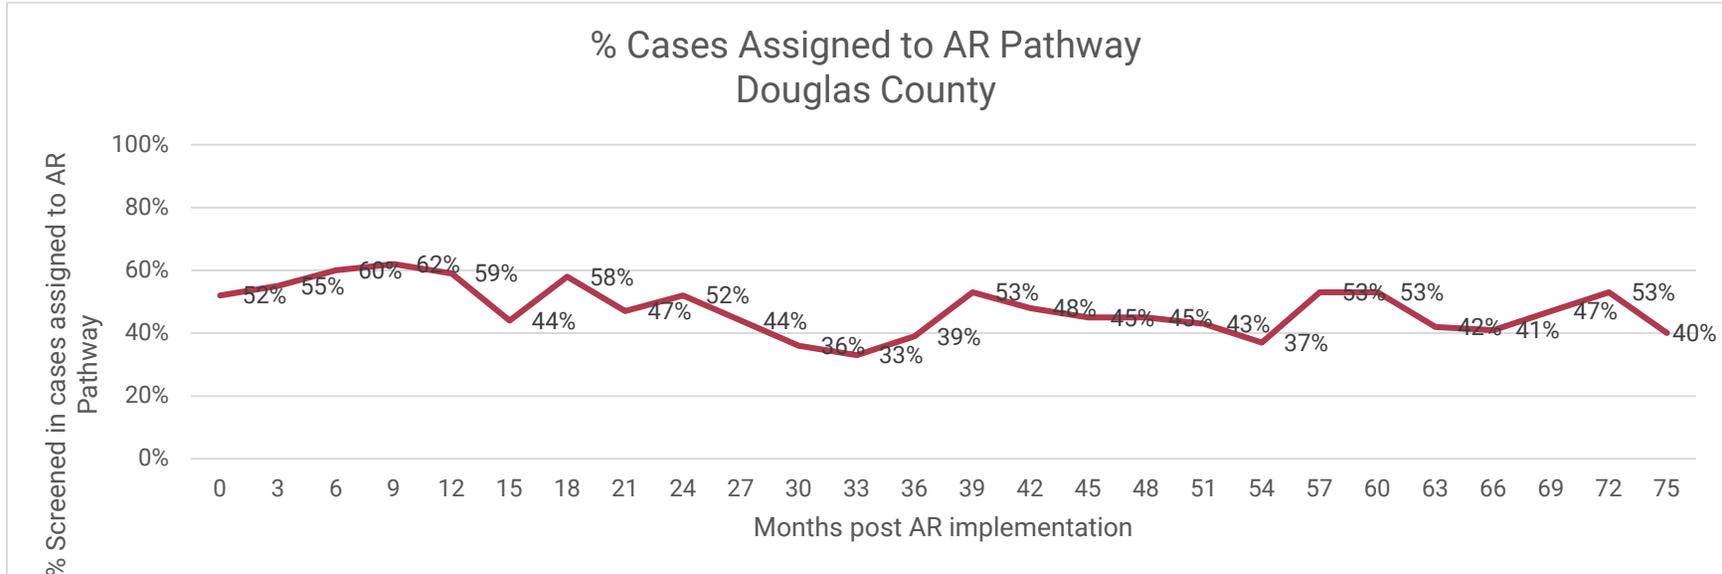

Sauk County

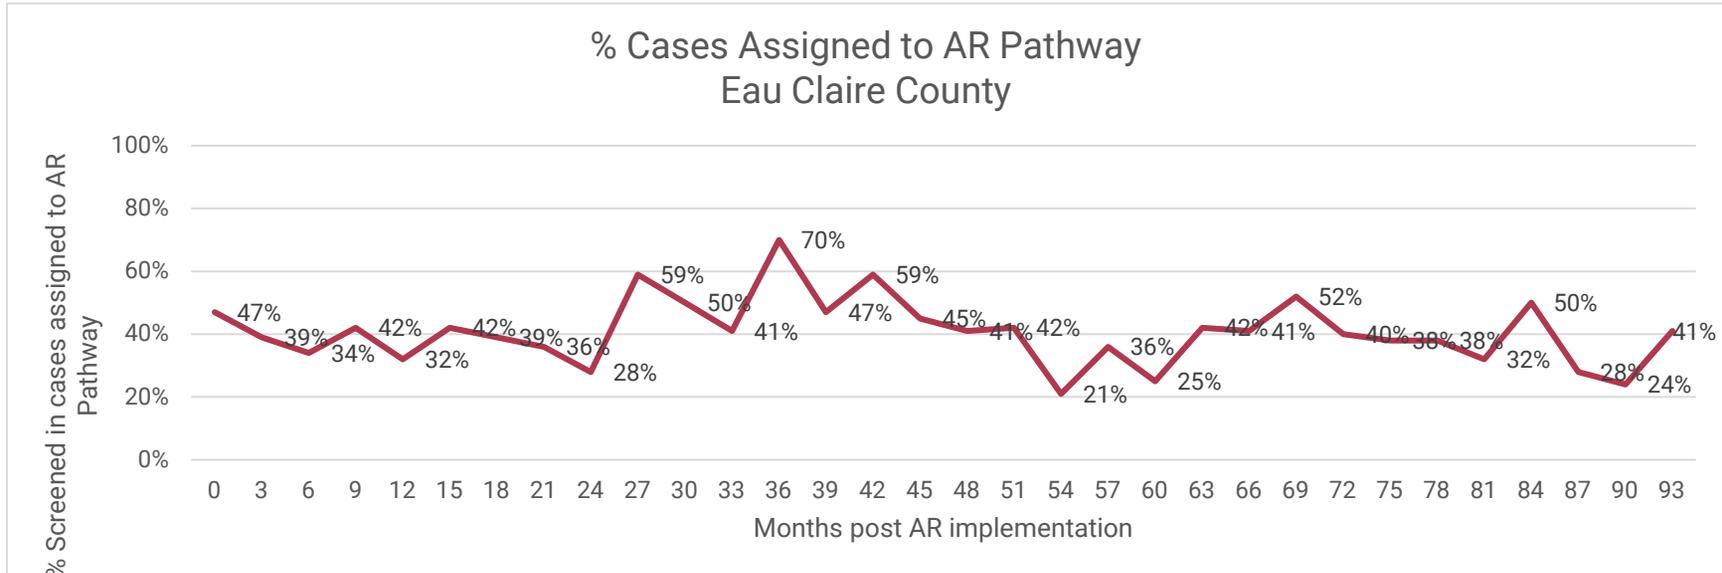

Counties with AR Assignment Rates that are Relatively Stable Over Time

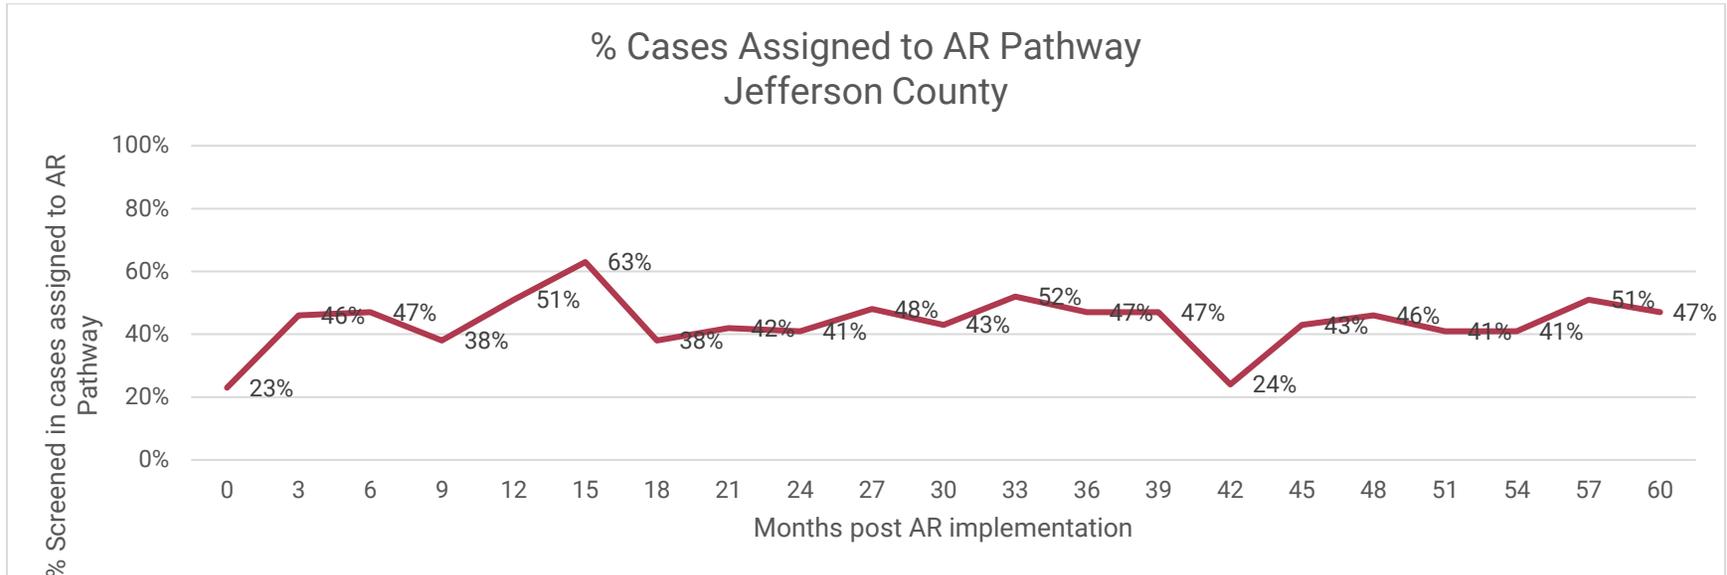

Douglas County

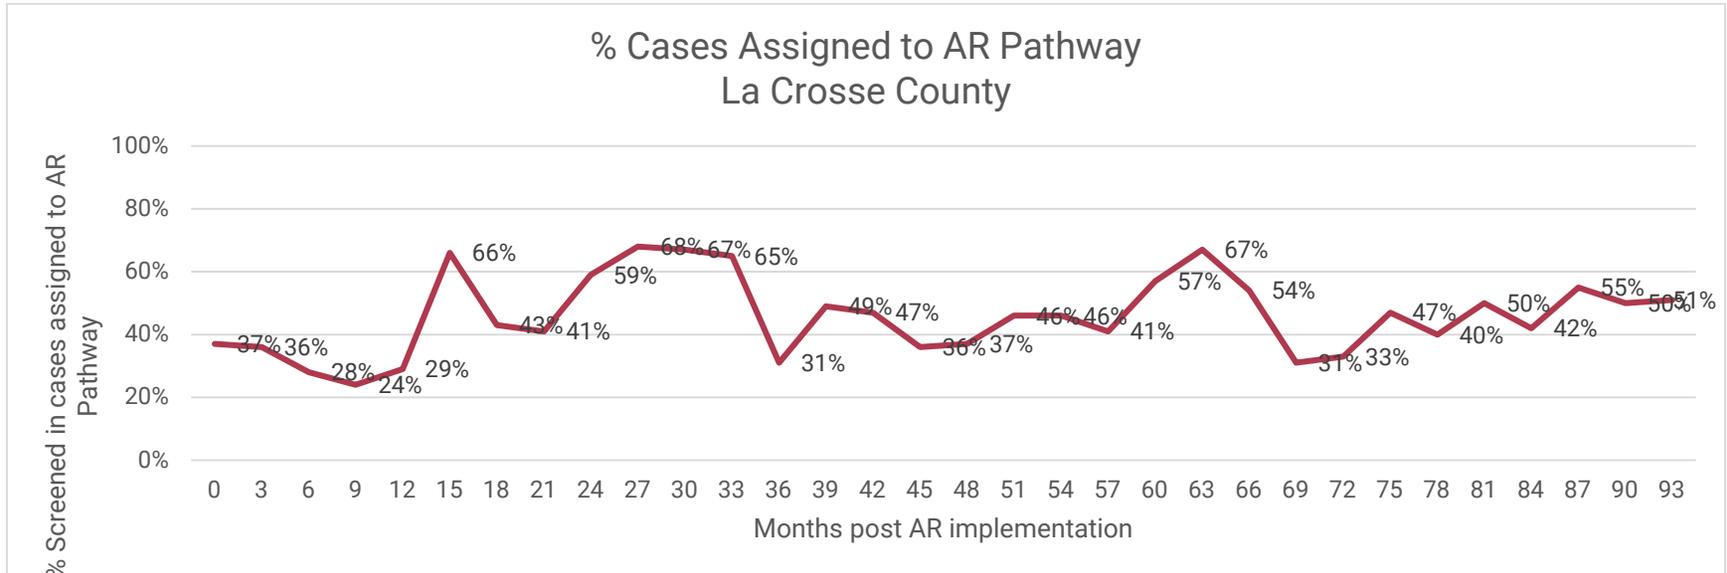

Eau Claire County

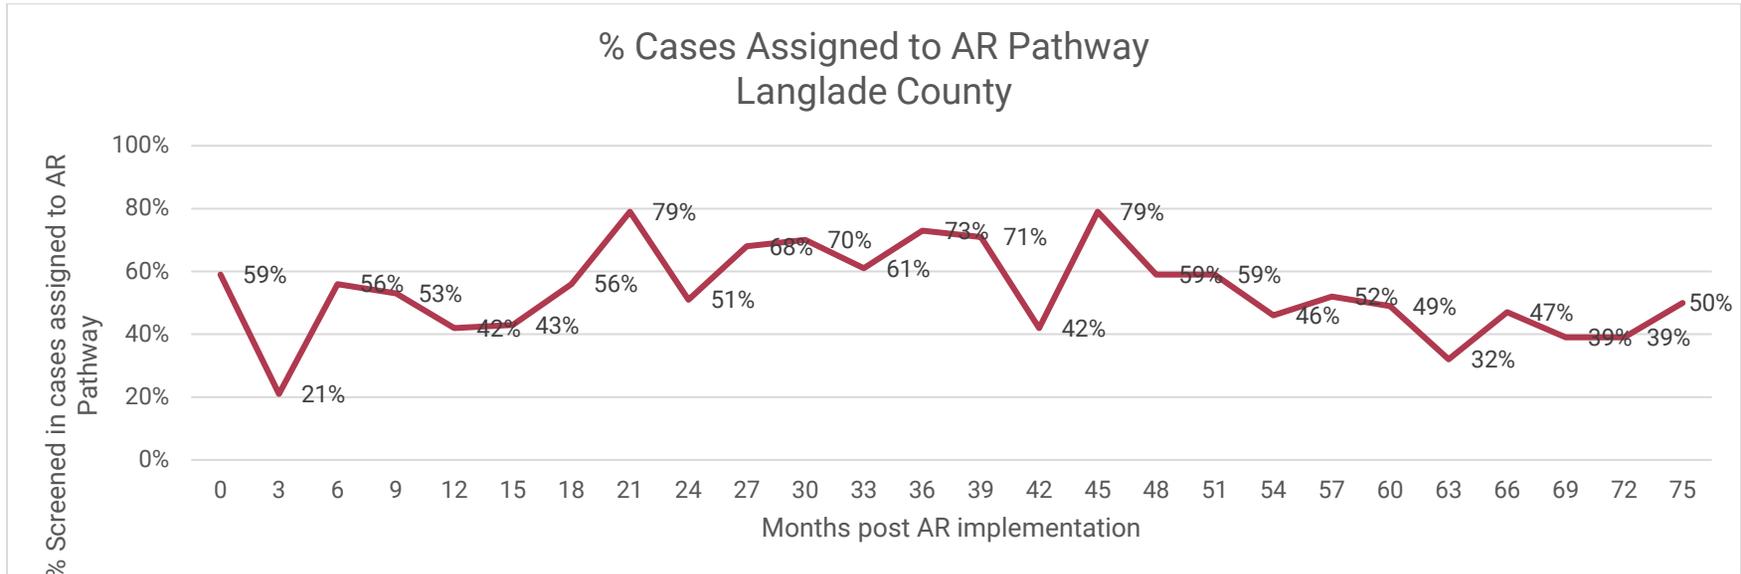

Jefferson County

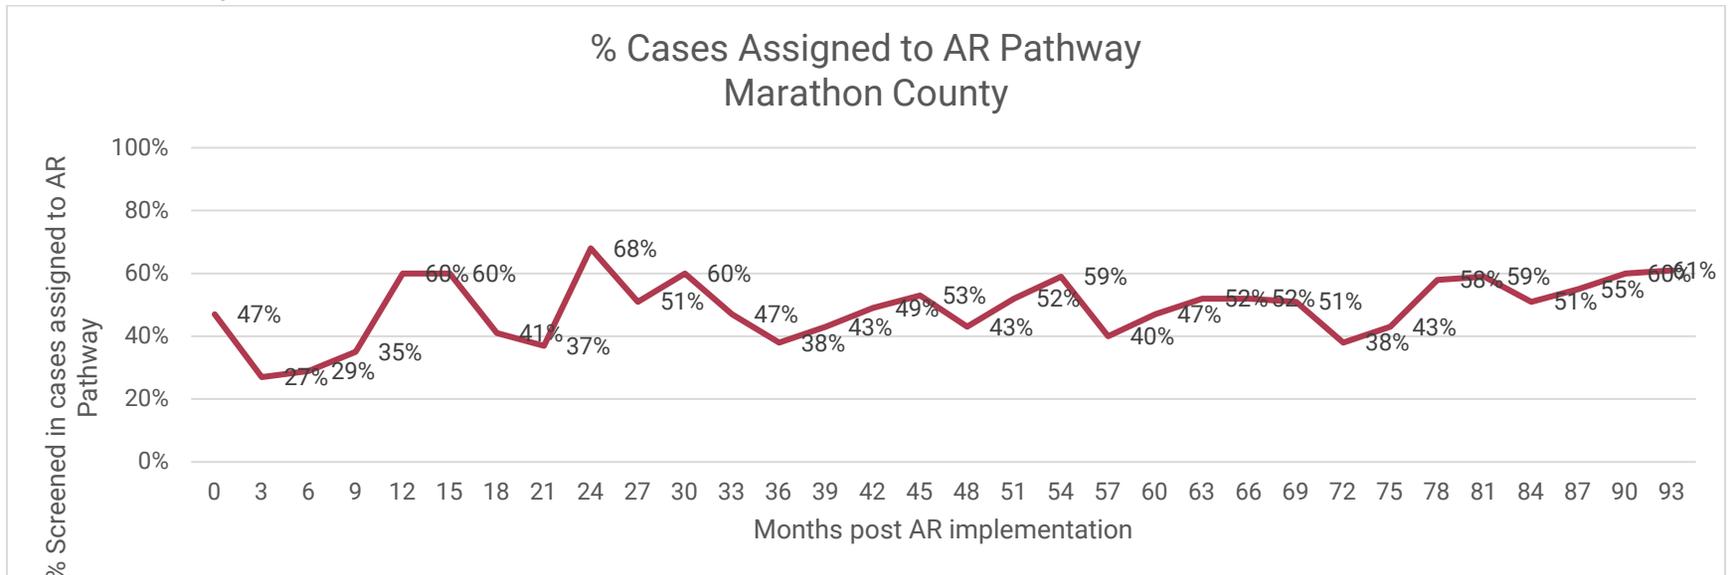

La Crosse County

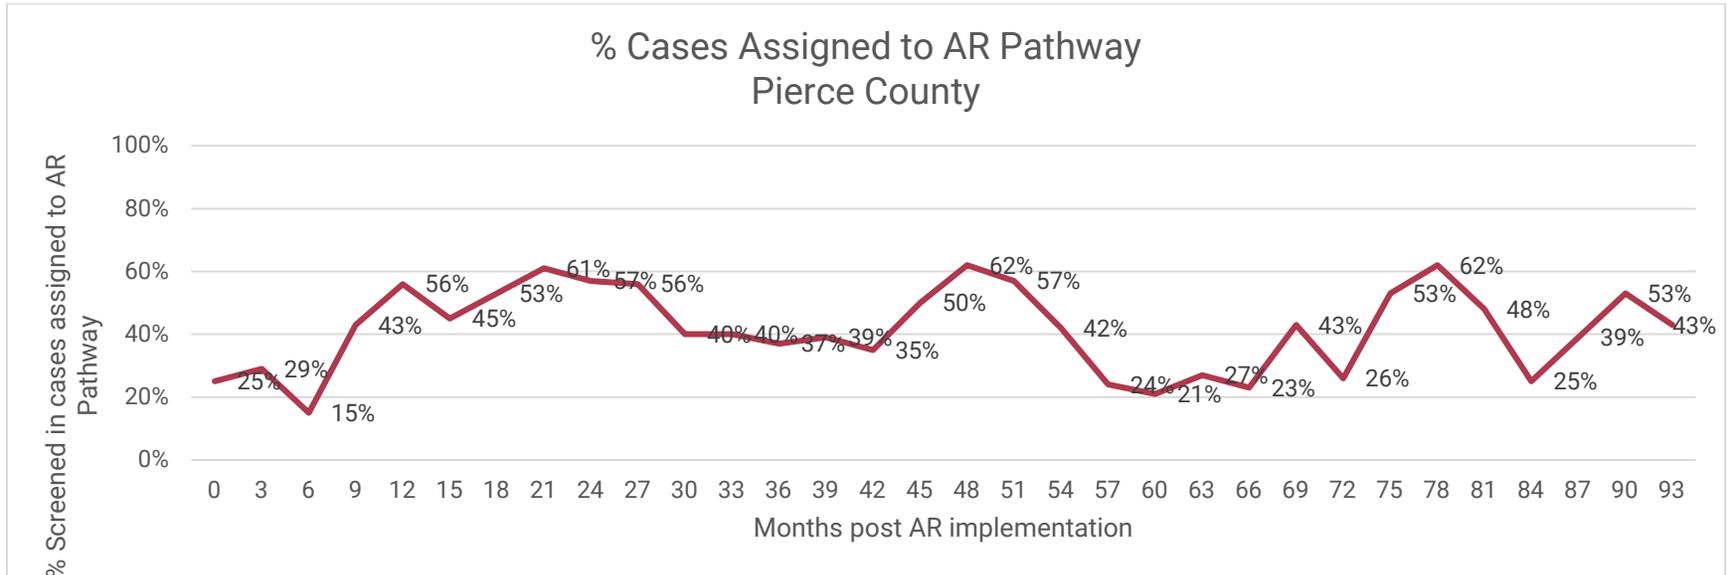

Langlade County

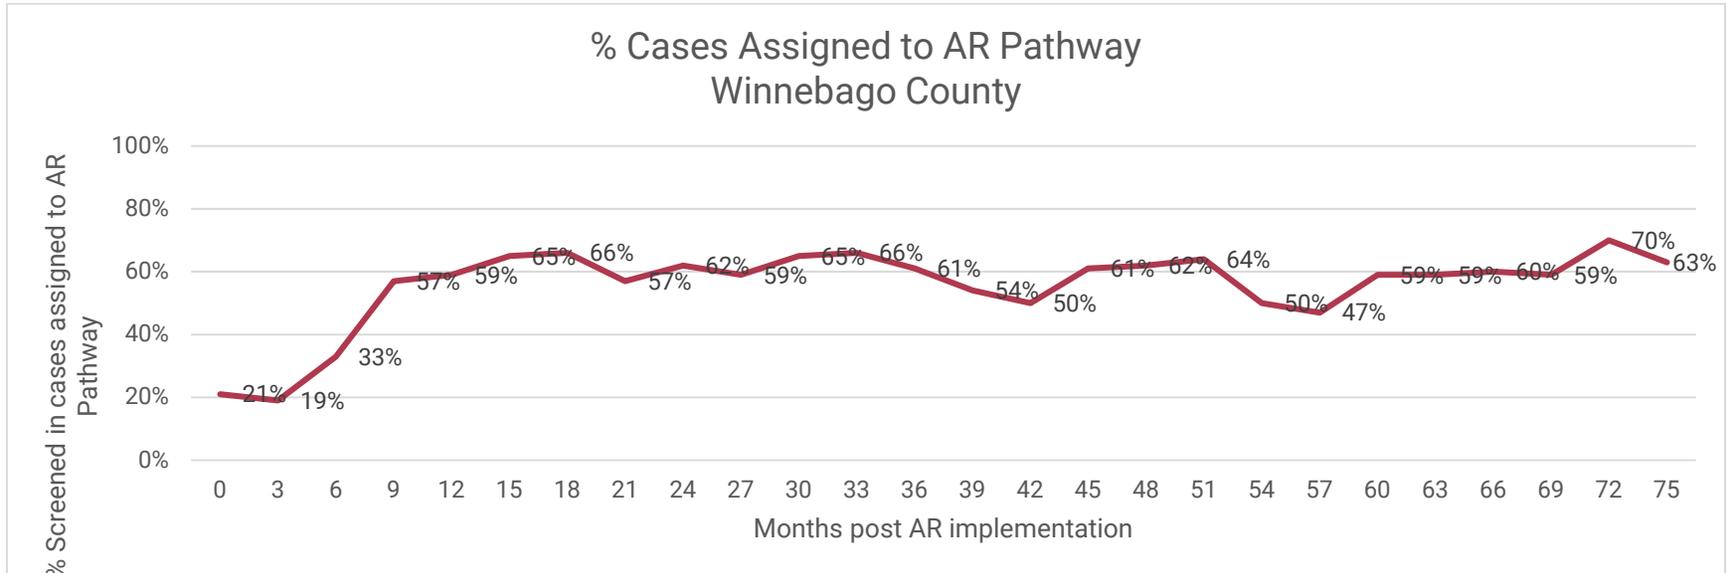

Marathon County

Pierce County

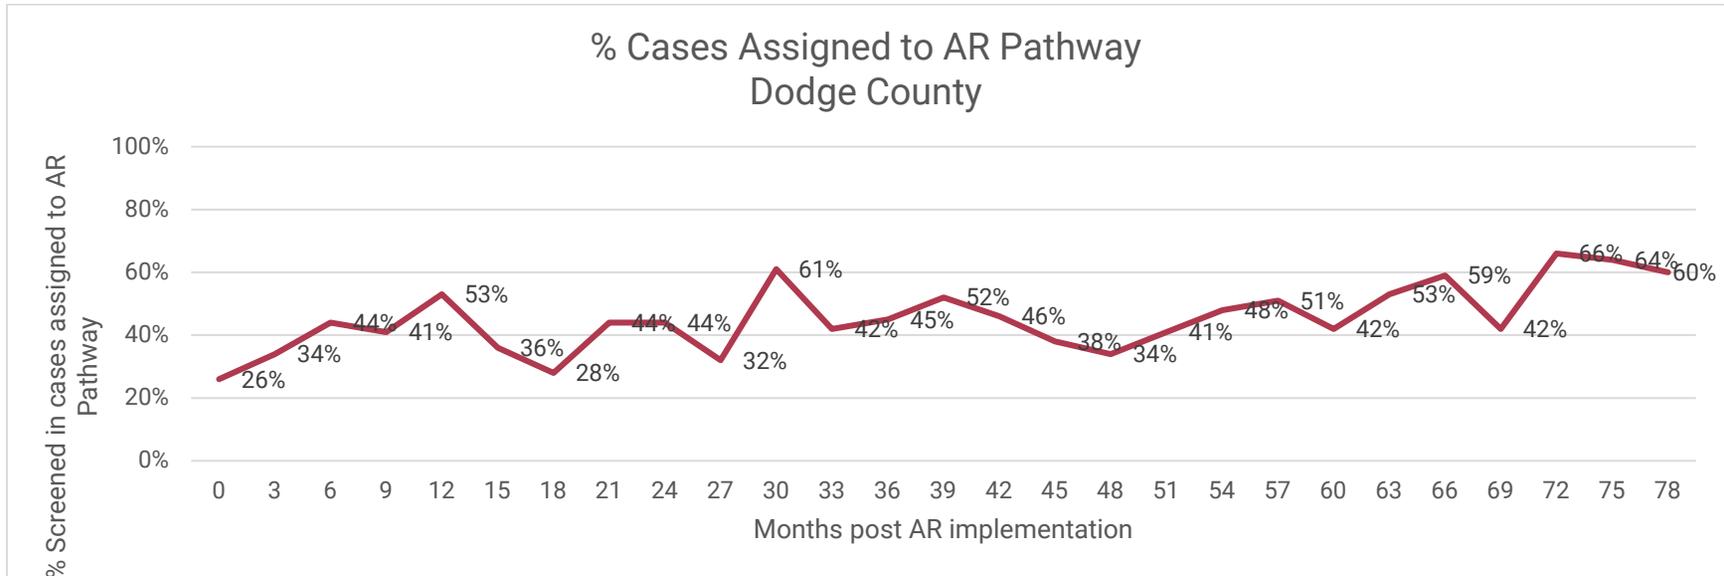

Winnebago County

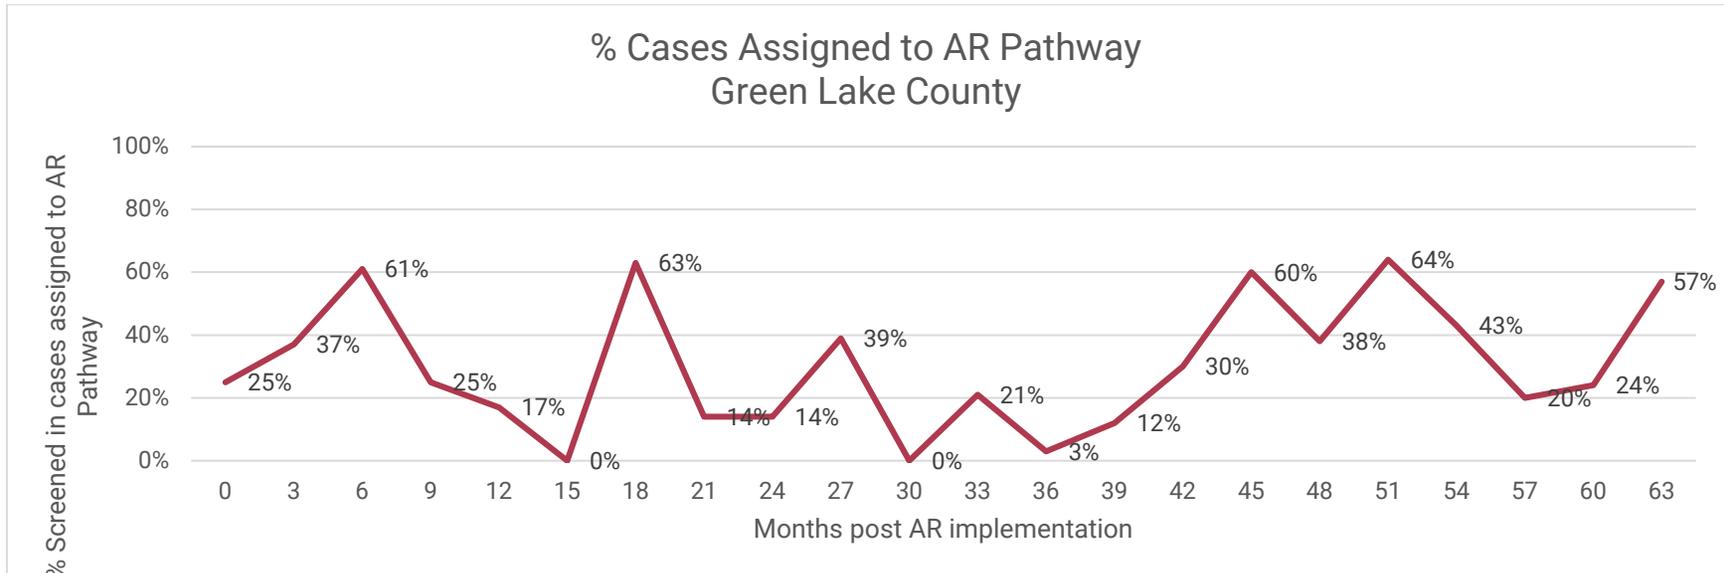

Counties with AR Assignment Rates that Increase Over Time

Dodge County

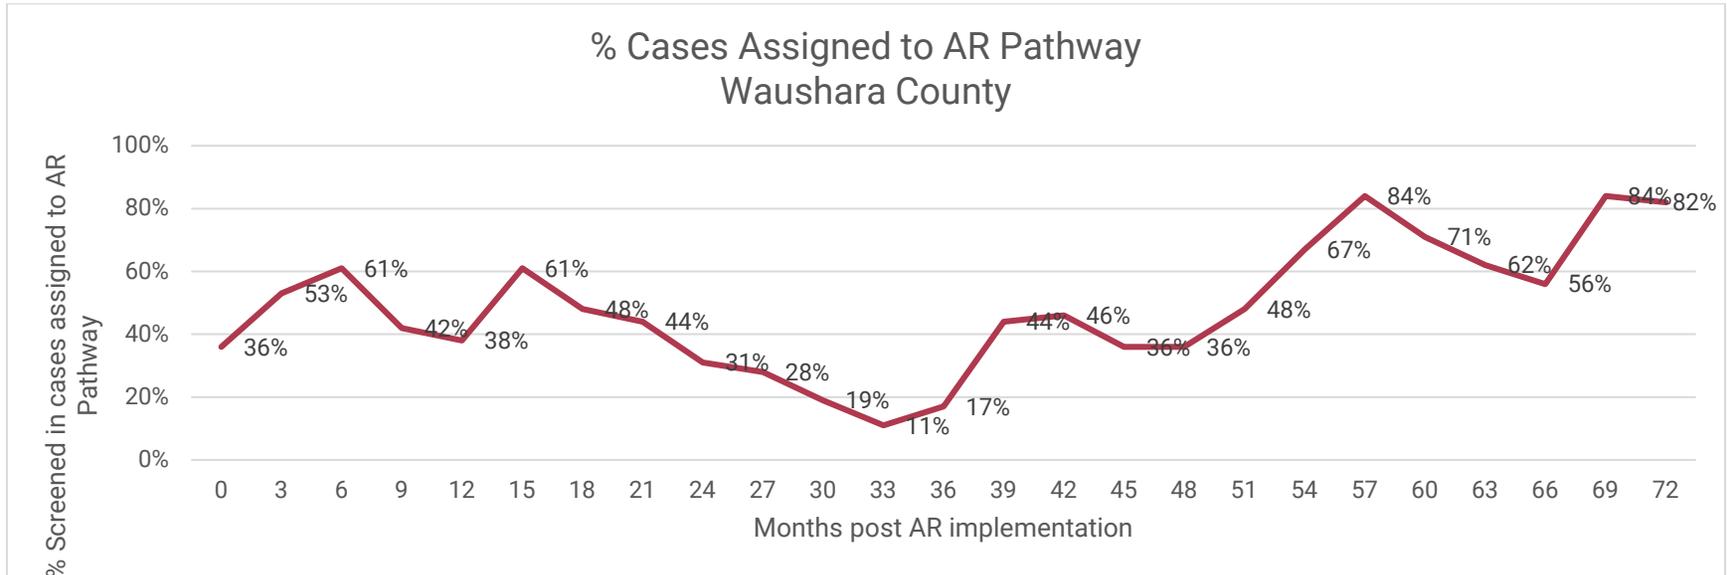

Green Lake County*

*NOTE: Small county, very unstable rates over time.

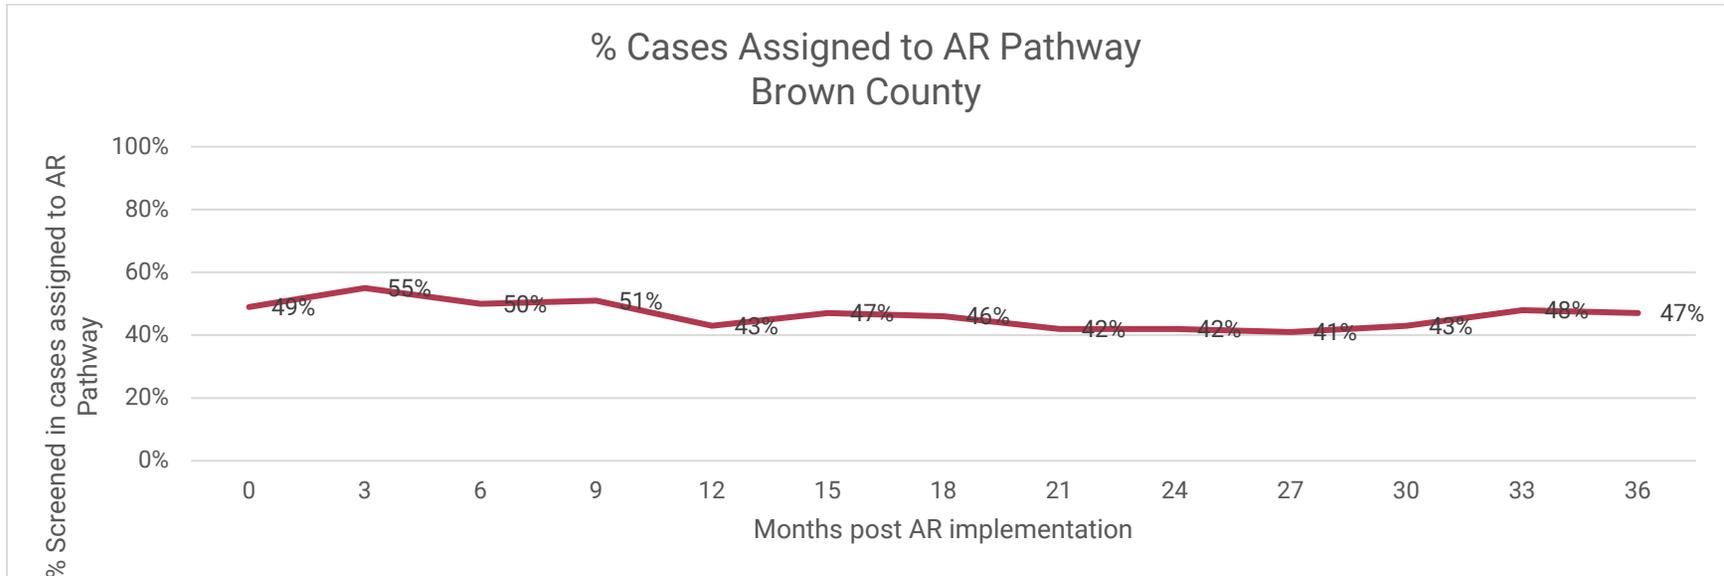

Waushara County

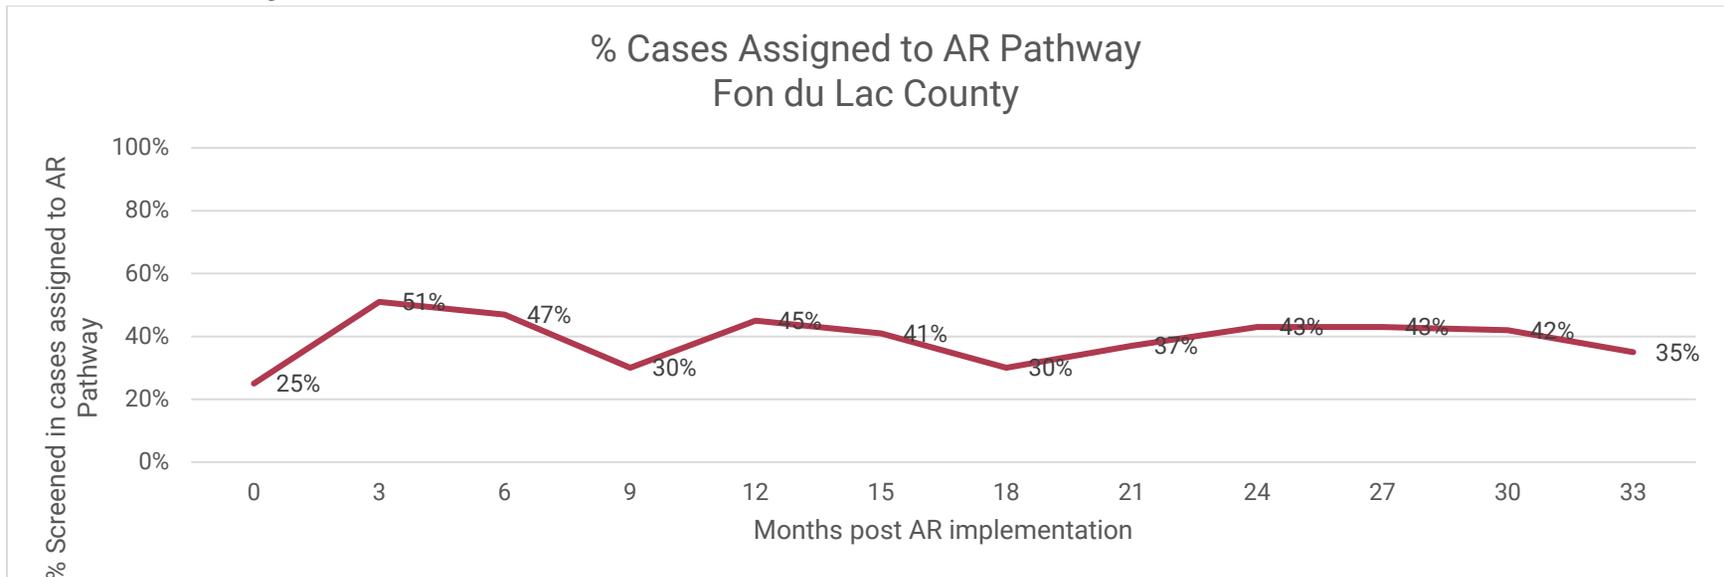

Counties in Cohorts 4 & 5 (No Long-Term Data)

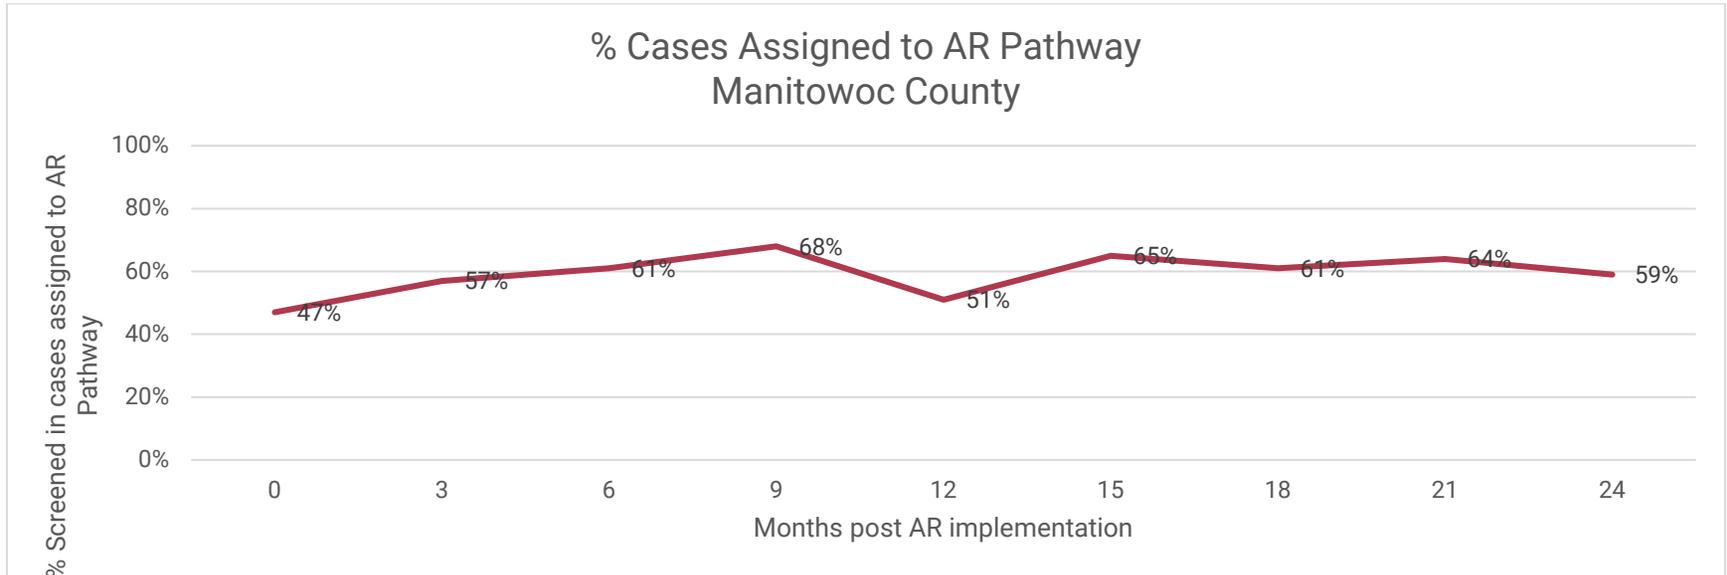

Brown County

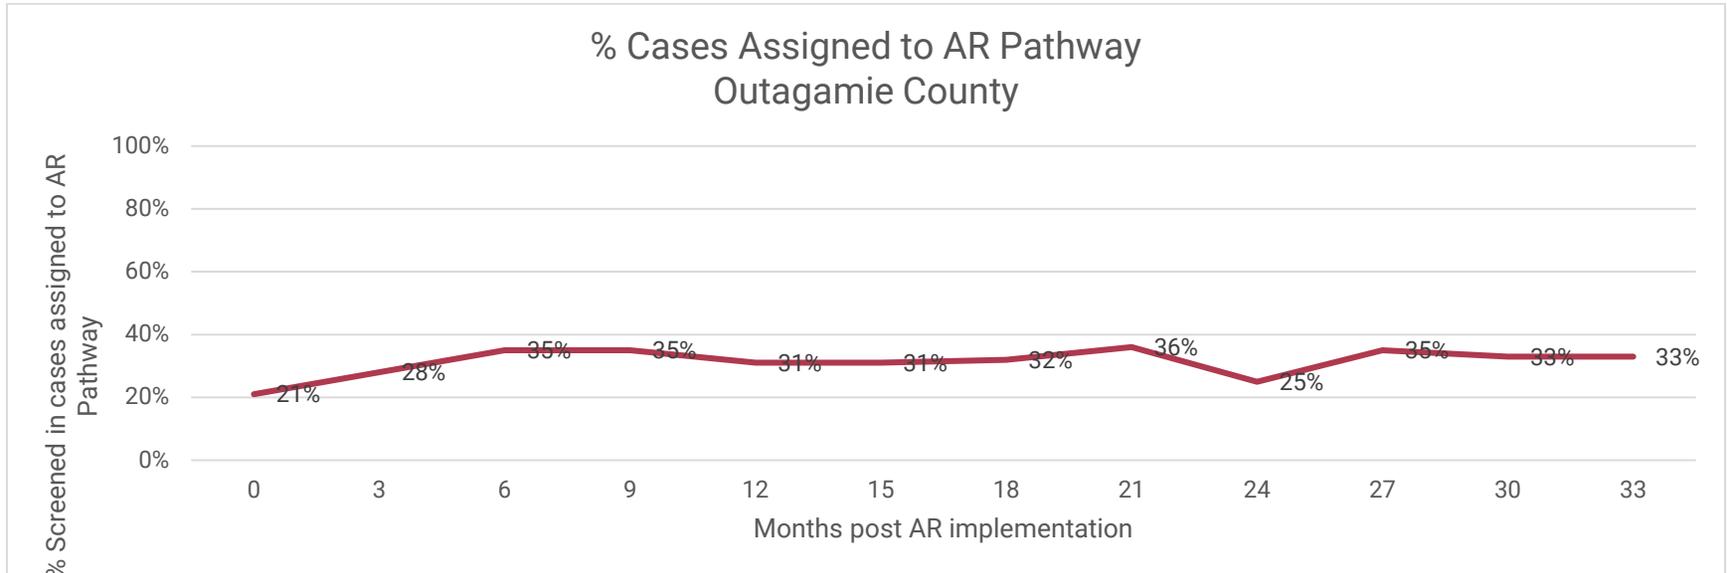

Fond du Lac County

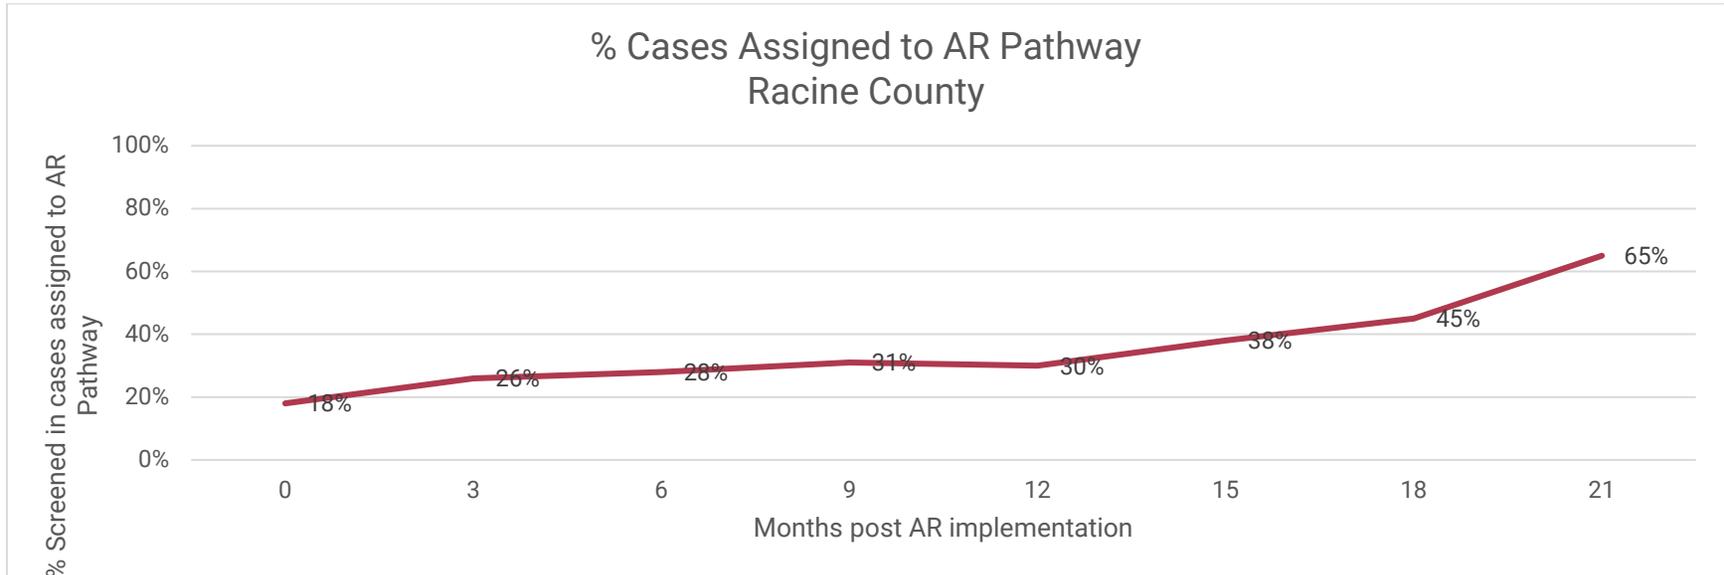

Manitowoc County

Outagamie County

Racine County

Waupaca County
