MIECHV Performance and Systems Outcome Measures (beginning 10/01/2016)

Benchmark 1: Maternal and Newborn Health	
Construct	**Measure 1: Preterm Birth**
Systems Outcome	% of infants (among mothers who enrolled prenatally before 37 weeks) who are born preterm following program enrollment
Construct	**Measure 2: Breastfeeding**
Systems Outcome	% of infants (among mothers who enrolled prenatally) who were breastfed any amount at 6 months of age
Construct	**Measure 3: Depression Screening**
Performance Indicator	% of primary caregivers screened for depression within 3 months of enrollment (if not enrolled prenatally) or within 3 months of delivery (if enrolled prenatally)
Construct	**Measure 4: Well Child Visit**
Performance Indicator	% of children who received the last recommended visit based on the American Academy of Pediatrics schedule
Construct	**Measure 5: Postpartum Care**
Performance Indicator	% of mothers enrolled prenatally or within 30 days after delivery who received a postpartum visit with a healthcare provider within 8 weeks of delivery
Construct	**Measure 6: Tobacco Cessation Referrals**
Performance Indicator	% of primary caregivers who reported using tobacco at enrollment and were referred to tobacco cessation counseling/services within 3 months of enrollment
Benchmark 2: Child Injuries, Abuse, Neglect and Maltreatment and Emergency Department Visits	
Construct	**Measure 7: Safe Sleep**
Performance Indicator	% of infants that are always placed to sleep on their backs, without bed-sharing or soft bedding
Construct	**Measure 8: Child Injury**
Systems Outcome	Rate of injury-related visits to the Emergency Department since enrollment among children enrolled in home visiting
Construct	**Measure 9: Child Maltreatment**
Systems Outcome	% of children with at least 1 investigated case of maltreatment following enrollment within the reporting period
Benchmark 3: School Readiness and Achievement	
Construct	**Measure 10: Parent-Child Interaction**
Performance Indicator	% of primary caregivers who receive an observation of caregiver-child interaction by the home visitor using a validated tool
Construct	**Measure 11: Early Language and Literacy Activities**
Performance Indicator	% of children with a family member who reported that during a typical week s/he read, told stories, and/or sang songs with their child every day
Construct	**Measure 12: Developmental Screening**
Performance Indicator	% of children with a timely screen for developmental delays using a validated parent-completed tool
Construct	**Measure 13: Behavioral Concerns**
Performance Indicator	% of home visits where primary caregivers were asked if they have any concerns regarding their child's development, behavior, or learning
Benchmark 4: Domestic Violence	
Construct	**Measure 14: Intimate Partner Violence Screening**
Performance Indicator	% of primary caregivers who are screened for interpersonal violence within 6 months of enrollment using a validated tool

MIECHV Performance and Systems Outcome Measures (beginning 10/01/2016)

Benchmark 5: Family Economic Self-Sufficiency	
Construct	***Measure 15: Primary Caregiver Education***
Systems Outcome	% of primary caregivers without a HS degree or equivalent who subsequently enrolled in, maintained continuous enrollment in, or completed HS or equivalent
Construct	***Measure 16: Continuity of Insurance Coverage***
Systems Outcome	% of primary caregivers who had continuous health insurance coverage for at least 6 consecutive months
Benchmark 6: Coordination and Referrals for Other Community Resources and Supports	
Construct	***Measure 17: Completed Depression Referrals***
Systems Outcome	% of primary caregivers referred to services for a positive screen for depression who receive one or more service contacts
Construct	***Measure 18: Completed Developmental Referrals***
Systems Outcome	% of children with positive screens for developmental delays (measured using a validated tool) who receive services in a timely manner
Construct	**Measure 19: Intimate Partner Violence Referrals**
Performance Indicator	% of primary caregivers with positive screens for intimate partner violence (IPV) who receive referral information to IPV resources
