December 2022

Updates on new or revised eWiSACWIS data reports and dashboards.

## eWiSACWIS Report Updates

### ***eWReport Retirements and Replacement Reports***

The DCF Child Welfare Research and Analytics (CWRA) team is continuing to retire several eWReports. Below are details on the reports retired in **December 2022**.

The Report Retirement Project is being undertaken for several reasons. Many are being retired as they are no longer supported by specific software. Others have been identified based on lack of use, irrelevant data measures (e.g. CFSR Round 1 Reports), and redundancy (the same information is in a different report). The CWRA team continues to work with report users to identify report retirement candidates.

The list of reports being retired are provided below. The first table states reports that will not be replaced. The second table states reports that will be retired and replaced. The last table provides the list of new replacement reports.
