7. Adjourn

The purpose of this meeting is to conduct the governmental business outlined in the above agenda. In 2008, Governor Doyle signed Executive Order 269, creating the Early Childhood Advisory Council (ECAC). The mission of the Council is to help ensure that all children and families in Wisconsin have access to quality early childhood programs and services. One of the Council's responsibilities is to identify opportunities for, and barriers to, collaboration and coordination among federally funded and state funded child development, child care, and early childhood education programs and services, including collaboration and coordination among state agencies responsible for administering such programs. The subcommittee was created to discuss issues of early childhood health, safety and wellbeing and includes representatives from the Department of Health Services, the Department of Public Instruction, the Department of Children and Families and ECAC member partners. This is the first meeting of the subcommittee.
