

# Horizon App for Mac OSX

These are steps to download and install the **Omnissa Horizon Client** to enable remote connection to your DCF VDI on MacOS

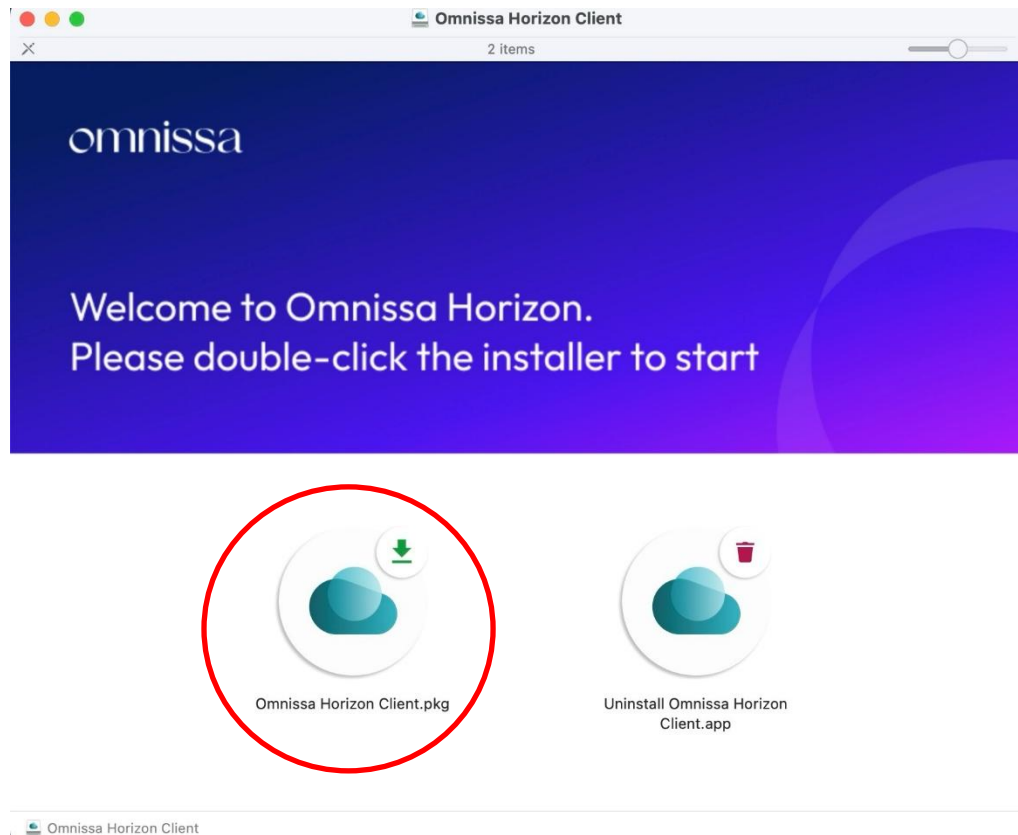

1. Click this link <https://dcfvd.wisconsin.gov> or copy and paste it into your favorite browser (example pictures show Internet Explorer).
2. On the webpage that comes up, click on **Install Omnissa Horizon Client**
3. Under the **Omnissa Horizon Client for Mac** click **Go to Downloads**

Product	Release Date

Omnissa Horizon Client for Windows	2025-04-15	<a href="#">GO TO DOWNLOADS</a>
▼ <a href="#">Omnissa Horizon Client for macOS</a>		
Omnissa Horizon Client for macOS	2025-04-15	 <a href="#">GO TO DOWNLOADS</a>

4. Click **DOWNLOAD NOW**

File	Information
<b>Omnissa Horizon Client for macOS</b>	
File size: 139.91 MB File type: dmg <a href="#">Read More</a>	<a href="#">DOWNLOAD NOW</a>

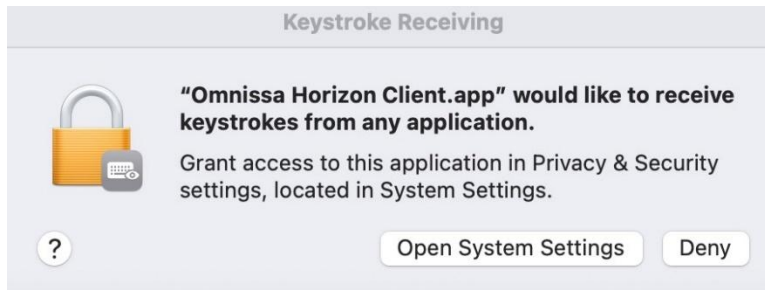

5. After the file downloads, open it, and double-click the **Omnissa Horizon Client.pkg** to begin installation.

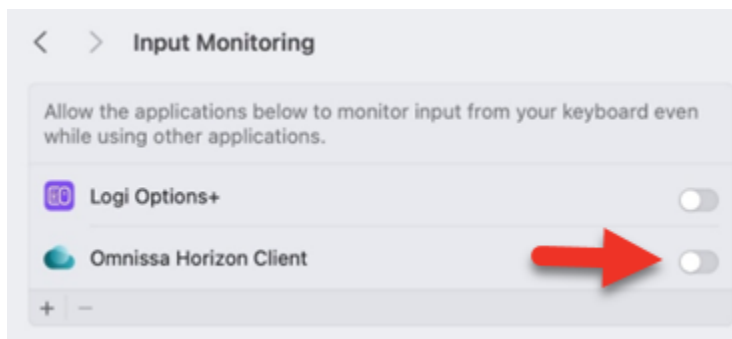

6. Follow the prompts to install Omnissa Horizon Client, and **Close** the installer.
7. Open the Applications list and select Omnissa Horizon Client.

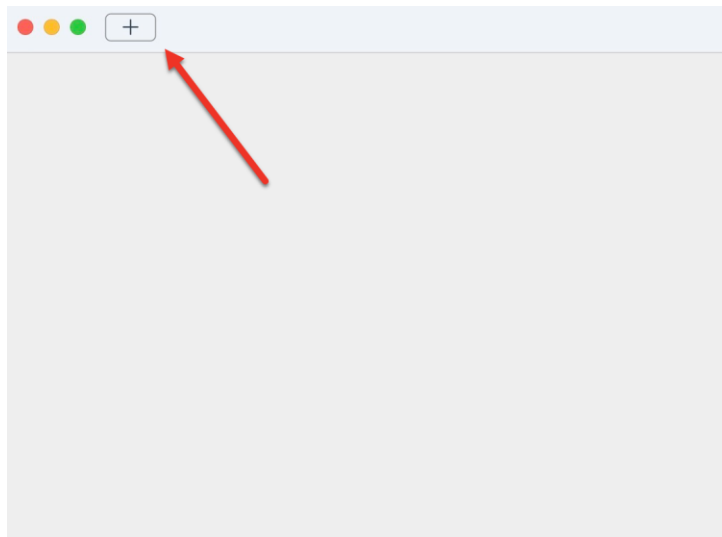

8. Depending on your Mac OS version, you may receive a dialog asking to allow Horizon Client to receive keystrokes.

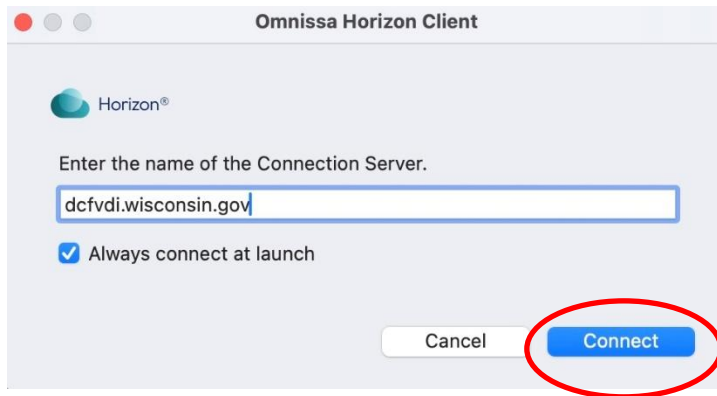

9. If so, click Open System Settings and enable Omnissa Horizon Client.

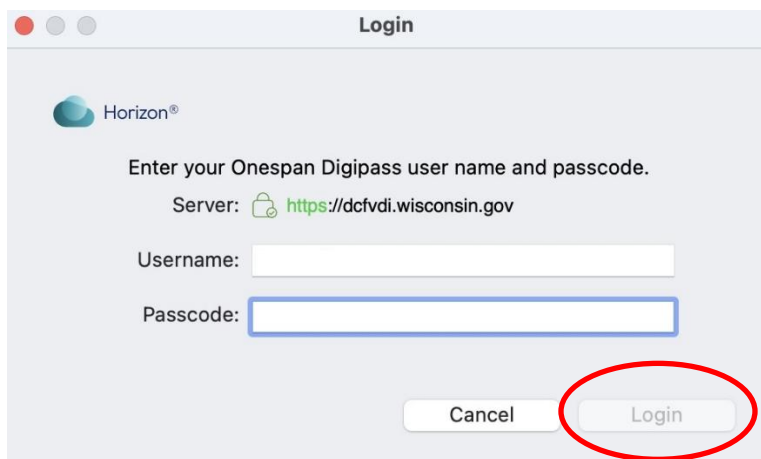

10. The Omnissa Horizon Client will launch. Click the Add button.

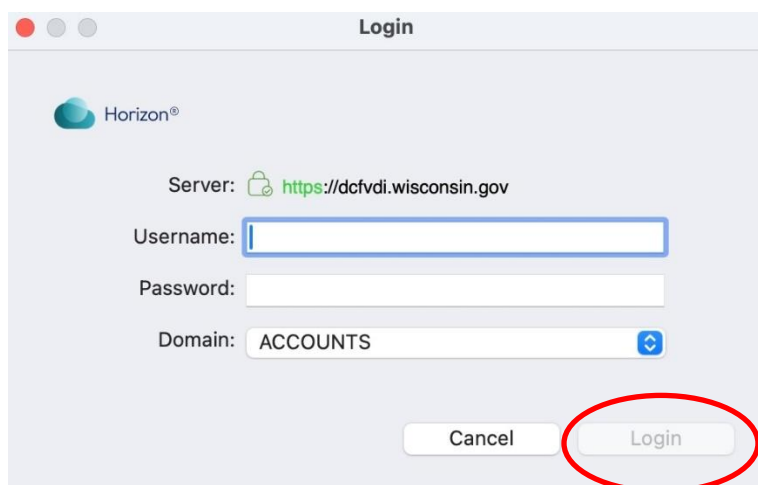

11. Enter `dcfvdi.wisconsin.gov` in the Connection Server field. Ensure the *Always connect at launch* checkbox is selected and click **Connect**.

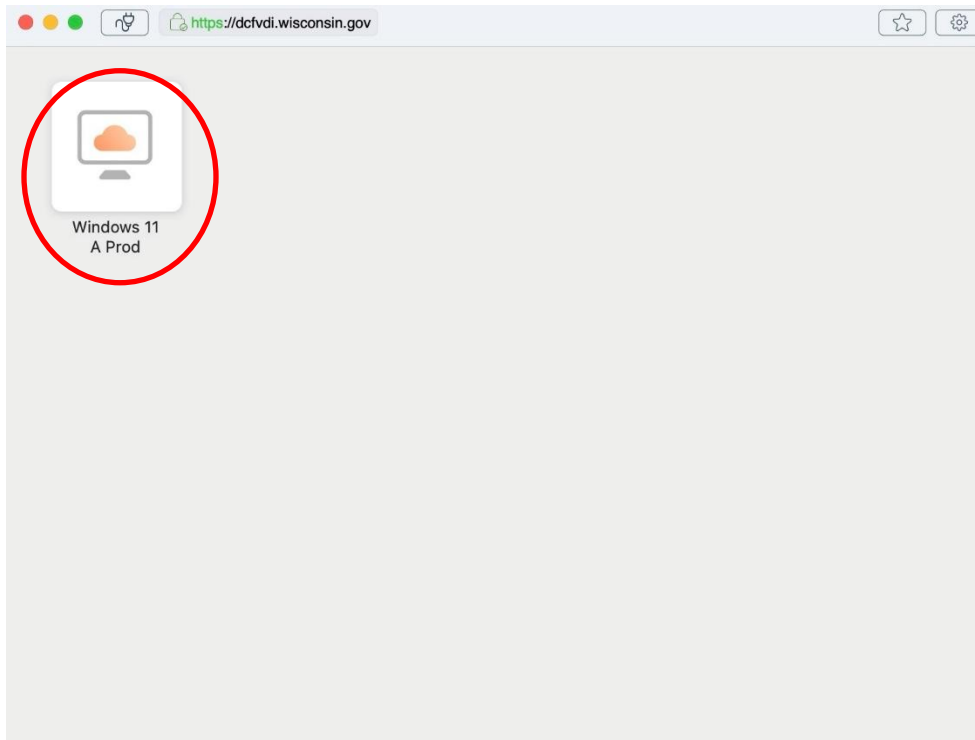

12. Enter your ACCOUNTS username and remote access passcode. Click **Login**.

13. Ensure *ACCOUNTS* is selected in the Domain field. Enter your ACCOUNTS username and password. Click **Login**.

14. Double-click your VDI.
