

VMWare Horizon Client Installation Instructions for Windows 10

These are steps to download and install the VMWare Horizon Client to enable remote connection to your DCF VDI. You will need to know what type of operating system you have, whether it is Windows 7 or Windows 10 and if it is 32 or 64 bit, and have rights to install software on the machine.

- 1) Click this link:
<https://dcfvdi.wisconsin.gov>
or copy and paste it into your favorite browser (example pictures show Internet Explorer).
- 2) On the web page that comes up, click on **Install VMWare Horizon Client**

- 3) On the new page, be sure that the version is set to HORIZON 8

- 4) Click on **Go to Downloads** for the client appropriate for your computer (if you don't know, you can contact the DCF Service Desk for assistance. Our contact information is at the end of this document).

Download VMware Horizon Clients

Select Version: **HORIZON 8**

VMware Horizon Clients for Windows, Mac, iOS, Linux, Chrome and Android allow you to connect to your VMware Horizon virtual desktop from your device of choice giving you on-the-go access from any location.

- 7) When prompted to **Run, Save** or **Cancel**, click **Run**.

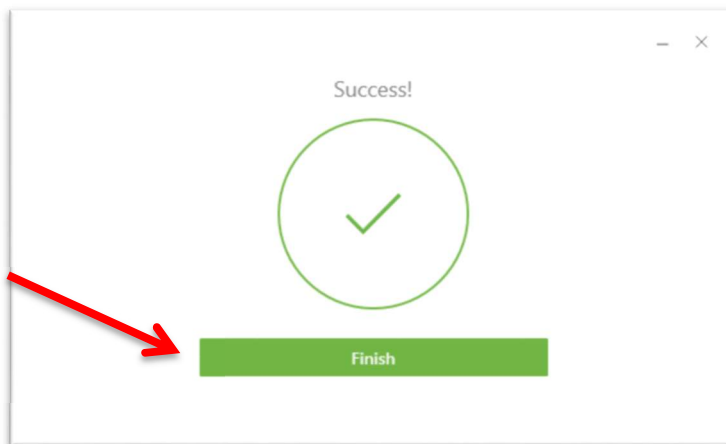

Do you want to run or save **VMware-Horizon-Client-2103-8.2.0-17759012.exe** (238 MB) from [download3.vmware.com](#)?

[Run](#) [Save](#) [Cancel](#)

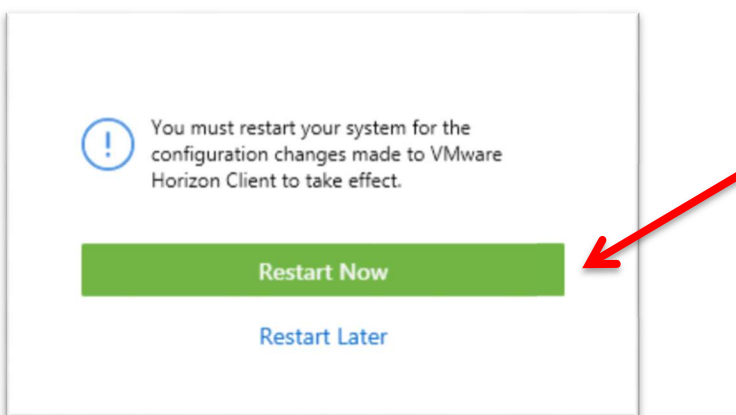

8) Click **Agree & Install** to begin installing the client.

9) After the install completes, click **Finish**.

10) You will be prompted to restart your computer after this install is complete. Click **Yes**.

- 11) After your computer restarts, open the VMWare Horizon Client software. You will be prompted to add a server. Double-click the **Add Server** button.

- 12) In the *Enter the name of the Connection Server* field, enter the following server name:
dcfvdi.wisconsin.gov
Click **Connect**.

- 13) You will then be prompted to enter your credentials. Please follow the instructions for **Using Two-Factor Authentication** to continue logging in.
