<p><b>Technical (For county/agency IT contacts)</b></p>	<p>44262: To remain on a secure, current, and supported database platform, the eWiSACWIS Oracle databases were upgraded from Oracle 12.2 to Oracle 19c and moved to updated server nodes. In addition to the database version changing, the version of database time zone file migrated from 14 to 36. Some installations also needed to upgrade their local time zone version to maintain compatibility with the import process.</p> <p>Updates to support the use of eWiSACWIS with Microsoft Edge in IE mode were included in the June 11, 2022, eWiSACWIS release. Additional information was shared with county/agency IT contacts.</p>
