WiSACWIS Tables Included in the County Replicated Database

Table Name	Description	Optional?
ADDRESS	This table maintains all ADDRESS information pertaining to a PERSON, except Intake Report (Report and Referral). Address detail consists of home, business and any other address that is identified as required for WiSACWIS processing. Processes of CM01 (Manage Person) build and maintain this information.	
AGREEMENT	The AGREEMENT table contains information about agreements between DHFS or the county agency, and adoptive/foster/birth parents regarding Case Participants' placement. Processes of SM10a create and maintain this information.	
ALLEGATION	This table maintains information pertaining to an accusation of a specific occurrence of abuse/neglect. An ALLEGATION is communicated through one CPS REPORT, but there can be multiple allegations in a CPS REPORT. An allegation is formed for each combination of alleged victim, alleged maltreater, and CAN code. Processes of SM01a (CPS Reports) and SM06a (Assessment) build and maintain the allegation information.	
ALLEGATION_CD	This table links allegation codes and descriptions to CAN Codes.	
APPROVAL	The APPROVAL table stores information about all Approvals in WiSACWIS. All related WiSACWIS processes build and maintain this data.	Yes
APPROVAL_HISTORY	This table maintains history information for individual APPROVAL records.	Yes
ASSESSMENT	The ASSESSMENT table contains information about the assessment/study that is conducted by the worker for a specific case. Information such as case identification information, approval information, and dates. Processes of SM07 (Assessment) create and update assessment information.	Yes
ASSET	The ASSET table maintains Case Participant-specific information to the assets that Case Participants have over a period of time. SM13a (Case Participant Information) processes build and maintain this table.	
ASSIGN_CATEGORY	The ASSIGN CATEGORY table defines categories, types, responsibilities, and roles for worker assignments.	
ASSIGNMENT	The ASSIGNMENT table maintains information pertaining to the ASSIGNMENT of a WORKER to a designated activity or a dimension of work for which a worker is held responsible. Category, type, role, and responsibility define the structure of worker assignment. ASSIGNMENTs can be associated with a CASE which may carry an associated weight, or they can be CASE, PROVIDER, or other work-related ASSIGNMENTs that do not carry any associated weight that feeds the measurement of workload capacity. Processes of CM02 (Maintain Worker Assignment) create and update this information.	
BANK	The BANK table is used to maintain account information for each county's banks where trust account money is kept. Processes of FM07 (Trust Account) maintain this information.	
BCKGCHCK_RESULT	This table maintains all BACKGROUND CHECK information pertaining to a PERSON. Processes of CM01 (Manage Person) build and maintain this information.	

Table Name	Description	Optional?

BED_RESERVATION — The BED RESERVATION table stores all bed reservations initiated by a placement request for a specific provider organization.

BENEFIT — The BENEFIT table keeps a history and shows the current status of each of the benefits a child is expected to receive. Processes within FM07 (Trust Account) maintain this information.

CAN_PART — This table stores information pertaining to a PERSON and CASE specified when creating a CASE NOTE. Processes of CM06 (Notes) build and maintain this information.

CAN_TEXT — This table stores information pertaining to a CASE NOTE including type and timestamps. This table does contain CASE NOTE text. Processes of CM06 (Notes) build and maintain this information. — Yes

CAN_TEXT_EVENT — This table stores identifying information pertaining to a CASE NOTE including category, type, timestamps, work units associated, and billable designation. This table does not contain CASE NOTE text. Processes of CM06 (Notes) build and maintain this information.

CASE — A CASE is the focus of every human services business activity. A case is created as a result of intake work and can be one of three types: individual (which includes TPR and Adoption cases), family, and DHFS provider or other provider. The CASE table contains case relations, address and approval information. Processes of SM04 (Maintain Case) and SM05 (Close Case) create and

CASE_CLOSURE — The CASE CLOSURE table stores authorization information and reasons associated with closing a case. A case can be closed and reopened. Processes of SM04 (Manage Case) and SM05 (Close Case) build and maintain this information.

CASE_EVAL — The CASE_EVAL table maintains detailed information pertaining to the Case Evaluation Plan for a Case. The Case Evaluation Plan is completed every six months after the initial creation of the treatment plans and the progress being made by case participants is stored in this table.

CASE_OTHR_CNTCT — The CASE OTHR CNTCT table maintains personal information about people who can be helpful for a worker in handling a case. These people do not have to be PERSONs in WiSACWIS. Data is created and maintained by SM04 (Maintain Case).

CASE_PART — This table maintains information pertaining to the PERSONs involved in a CASE, or a collateral person about whom DHFS or a county agency needs to keep information for assessment or other purposes. A CASE PART may be any person who has a high degree of relevance to the family in question. A PERSON may be a case participant, eligible for payments, in only one open case at a time, though he/she may participate in a second or third case as a non-client (a neighbor, attorney, teacher, aunt, etc.). A client is any person for whom the agency is required to provide either voluntary or mandated services for such as a court study, services or Interstate Compact home study or supervision. A CASE PART is assisted by one or more workers at any given time. SM04a (Maintain Case) processes build and maintain this table.

CASE_PART_STAT — The CASE PART STAT table maintains information about changes in Case Participant status. New records in this table are created each time statuses change by processes in SM04a (Maintain Case).

CASE_PLAN — The CASE PLAN table maintains common information for Treatment Plans which are family focused.

CASE_PLAN_ITEM — The CASE PLAN ITEM table maintains information about each activity or service to be delivered to a case participant (adults and children) specified in the Treatment Plan row. Processes in SM08 (Document Plans) build and maintain this data.

Table Name	Description	Optional?
CASE_PLAN_ITEM_DETAIL	The CASE PLAN ITEM DETAIL table maintains information about each goal set for a child specified in one Treatment Plan Item row. Processes in SM08 (Document Plans) build and maintain this data.	
CATEGORY_TYPE	This table contains categories and types for manual events, ticklers, and checklists.	
CHECKS	The CHECKS table maintains detailed information about all checks (physical and electronic) issued including the check number, check date, disposition, payee, and voucher number. Processes of FM02 (Issue/Reconcile Checks) maintain and update this information.	
CODE_DESC	The CODE DESC table is used to house the description fields for most of the reference data used in WiSACWIS.	
CODE_DESC_FNCL	This table houses the description fields for all reference codes for the financial data elements.	
CODE_DESC_LRG	This table houses the descriptions for all SMALLINT values with large descriptions (i.e. Court addresses).	
CODE_DESC_STATIC	This table holds the hard coded static values used by WiSACWIS.	
CODE_GRP_DESC	This table houses the table groupings contained in CODE DESC, CODE DESC LRG and CODE DESC STATIC.	
COUNTY_CASE_CROSS_REF	This table contains each counties Case ID, and cross references that ID to a single WiSACWIS Case ID. Each County may have a different ID reference to a WiSACWIS Case ID.	
COUNTY_PERSON_CROSS_REF	This table contains each counties Person ID, and cross references that ID to a single WiSACWIS Person ID. Each County may have a different ID reference to a WiSACWIS Person ID.	
COUNTY_PROVIDER_CROSS_REF	This table contains each counties Provider ID, and cross references that ID to a single WiSACWIS Provider ID. Each County may have a different ID reference to a WiSACWIS Provider ID.	
COURT_DISP	This table maintains information pertaining to a CASE PART's COURT DISP. It is maintained for the CASEs that require court monitoring and control (one time or periodic hearings, etc.). Processes of SM09 (Manage Legal Actions) build and maintain this data.	
CPS_REPORT	The CPS REPORT table maintains basic information pertaining to a request for service from Child Protective Services. A CPS REPORT is the record of a reporter who contacts DHFS, the county child welfare division, or the county central intake unit to report allegations of abuse/neglect/at risk. Primary groups of information such as address, reporter information, approval information, RTM and corresponding risk levels are created and maintained by the processes of SM01 (CPS Reports).	
DOC_NARRATIVE	This table stores PS report narratives. Information from the Intake, Initial Assessment and Document Plans Modules are stored in this table.	Yes
EDUCATION	The EDUCATION table maintains information pertaining to a CASE PART's educational background and special needs such as special education eligibility, dates associated with IEP (Individualized Education Program) and diploma/certificate information. Processes in SM07a (Education) build and maintain this data.	

Table Name	Description	Optional?

EMPLOYMENT — The EMPLOYMENT table maintains Case Participant specific employment information with a specific employer for a period of time. Processes of SM13b (Assets and Employment) build and maintain this information.

EPISODE — The EPISODE table maintains information pertaining to the occurrence of the delivery of one or more out-of-home SERVICEs involving one PROVIDER and one or more CASE PARTICIPANTs. Placement out of home and removal from home are other types of Episodes stored in this table. Processes of SM10a (Out of Home Placement) build and maintain this information.

FAMILY_ASSESSMENT — The Family Assessment is completed for a case, at the conclusion of the Initial Assessment process. It is an instrument used to aid the worker in their analysis of issues surrounding the family. The FAMILY_ASSESSMENT table maintains general information about a family assessment including date of the assessment and family service level codes indicating the intensity of worker-effort required in the management of the case.

FAMILY_ASSESSMENT_DOMAINS — The Family Assessment draws attention to various aspects of the family's functioning through five Domains, or broad subject areas, and concludes with an Analysis of the families understanding of, and approach to, their situation. The FAMILY_ASSESSMENT_DOMAINS table maintains assessment details for each of these domains.

HOME_INQUIRY — This table houses the inquiry information for families looking to be home providers.

IA_NARRATIVE — The IA_NARRATIVE table maintains an explanation, collected during the initial assessment, of the maltreatment and the circumstances surrounding the maltreatment. In addition, this table contains a description of how the child(ren) and family is responding to the maltreatment.

IA_PRIMARY — This table holds the information associated with Initial Assessments completed for the Initial Assessment - Primary Caregiver Module and Modified Initial Assessment - Primary Caregivers module.

IA_SCNDRY — This table holds the information associated with Assessments completed on the Initial Assessment - Secondary Caregivers module.

INTAKE_PART — The INTAKE PART table maintains information pertaining to the PERSONs involved in a CPS REPORT, VOLUNTARY SERVICE REFERRAL, or a HOME INQUIRY. An INTAKE PART may be a witness, a neighbor, a family member, a reporter, a victim, a maltreater or, for a referral, a subject source, family member, etc. One PERSON can have multiple ROLEs. INTAKE PART records are created from a report/referral id, person id and work type. Records are built and maintained by the SM01a (CPS Reports), SM01b (Services Intake), and PM07 (Home Inquiry) processes.

INVESTIGATION — The INVESTIGATION table contains information related to the initial assessment of reports of abuse/neglect/at risk situations such as assessed/investigated case identification information as well as administrative information regarding the assessment. Processes of SM06a (Initial Assessment) create and maintain this information.

INVESTIGATION_CNTC — INVESTIGATION CNTC table maintains information about people important for an Initial Assessment. These people are not PERSONs in WiSACWIS. Information such as contact name, affiliation/relationship, contacted dates are created and maintained by processes in SM06a (Initial Assessment).

JOB_CLASS — This table houses the job classes used by WiSACWIS for county and DHFS workers.

Table Name	Description	Optional?
KIDS_TRANS	The KIDS_TRANS table is used by WiSACWIS to the KIDS Daily interface. Processes of FM07 (Trust Account) maintain this information.	Yes
LEA_HISTORY	The LEA HISTORY table maintains history of education agencies responsible for the case participant. Processes of SM07 (Education) build and maintain this information.	
LEGAL_ACTION	The LEGAL ACTION table maintains detailed information about legal actions brought by DHFS on behalf of case participants and the court where the petition is being heard. Processes for SM09 (Court) build and maintain this data.	
LEGAL_DOC	The LEGAL DOC table maintains information about legal documentation related to bringing legal actions required for case participants. The data is created and maintained in SM09 (Court).	Yes
LICENSE	This table maintains information pertaining to the authorizations from DHFS or the county agency regarding a PROVIDER ORG's ability to operate a specific business (Foster home, group home). Data maintained in this table includes: provider id, license description and authorization, status, type and various indicators such as home study completed, background check completed, etc. Records are created by PM04a (Licensing).	
LICENSE_ACTION	This table supports post license approval actions documented for a license. Example: Suspend, Place on hold, or revoke.	
LINK_PART	This table houses Participant information for Assessment Participant, Legal Doc Participant and Placement Request Participant.	
LOCATION	The LOCATION table provides address information for all Regional offices, sub-offices, facilities and all divisions of these offices as well as similar information about county child welfare offices.	
MEDICAID_CERT	The MEDICAID_CERT table records Medicaid Certifications for specified case participants. Processes within FM03 (Eligibility) maintain this information.	Yes
MEDICAID_ELIGIBILITY	The MEDICAID_ELIGIBILITY table is used to document Medicaid Eligibility records for a specific child. Processes within FM03 (Eligibility) maintain this information.	
MEDICAL_PROFILE	The Case Participant MEDICAL PROFILE table maintains information about basic problems, allergies and medical conditions of case participant. Data in this table is maintained by DHFS or county workers.	
MENTAL_HEALTH_PROFILE	The Case Participant MENTAL HEALTH PROFILE table maintains information about basic MH problems, medications and MH conditions of case participants.	
NEEDS_AND_STRENGTHS	This table will be used by the new ongoing model functionality.	
PAN_TEXT_EVENT	This table stores identifying information pertaining to a PROVIDER NOTE including category, type, timestamps, work units associated, and billable designation. This table does not contain PROVIDER NOTE text. Processes of CM06 (Notes) build and	
PARENT_AGENCY	Contains a history of parent agencies associated with a child agency.	Yes

Table Name	Description	Optional?
PAY_CLAIM_HISTORY	The PAY_CLAIM_HISTORY table maintains information regarding medical treatment given to a case participant. This includes diagnoses, procedures, provider types, and service types.	
PAYMENT	The PAYMENT table stores detailed information about payments made to providers including but not limited to service begin date, service end date, payment amount, provider, child, case, and payee. Processes of FM01 (Process Payments) maintain and update this information.	
PAYMENT_ADJUST	The PAYMENT_ADJUST table stores detailed information about adjustments made against provider overpayments. Processes of FM01 (Process Payments) maintain and update this information.	
PAYMENT_ELIG_DAYS	The PAYMENT_ELIG_DAYS table stores the number of days each payment was earmarked within an eligibility status. Processes of FM04a (Reimbursement) maintain and update this information.	
PAYMENT_REIMBURSEMENT	The PAYMENT_REIMBURSEMENT table contains a history of system calculated reimbursement claim amounts. Processes of FM04a (Reimbursement) maintain and update this information.	
PERSON	This PERSON table maintains information that identifies an individual known to DHFS or the county child welfare division such as name, date of birth, social security number, race, sex, etc. A PERSON can be a WORKER, REPORT PART, REFERRAL PART, CASE PART or PROVIDER PART. Primary search processing is centered around this data. Processes of CM01 (Manage Person) build and maintain this information.	
PERSON_AKA	This table maintains a PERSON's record of associated names (also known as... names); specifically, to satisfy search criteria when attempting to locate a PERSON and they are known to have used aliases. Also, this table will support name changes in reference to instances where a person would legally change their name, i.e. marriage, divorce, etc. Processes of CM01 (Manage Person) build and maintain this information.	
PERSON_MERGE	This table houses the requests for people to be merged together.	Yes
PLACEMENT_REQUEST	The PLACEMENT REQUEST table maintains information associated with the request for child's out of home placement. Processes of SM10a (Out of Home Placement) build and maintain this information.	
PRMNCY_PLAN	This table holds the information associated with the Permanency Plan such as a child's current goal and future goal for permanency. In addition information pertaining to federal ASFA requirements, reasons why TPR is not appropriate at the current time, placement safety information and Independent Living information is stored in this table.	
PRMNCY_PLAN_IL_DETAIL	The PRMNCY_PLAN_IL_DETAIL table maintains the details of the independent living arrangement portion of the plan, if applicable.	
PROV_REPMNT_MTHD	The PROV_REPMNT_MTHD table maintains details about the provider repayment method at the Provider/County level. This means that each county can maintain a repayment method for each provider. Workers can also indicate that the repayment method for a Provider/County will be handled at the individual payment level.	
PROVIDER_ORG	This table maintains information pertaining to a PROVIDER ORG, facility or vendor. Data includes name and address information, placement preferences and home condition description. Records in PROVIDER ORG table are created in PM02a/b (Maintain Home/Private Provider) and updated in PM04a (Licensing Home Provider).	

Table Name	Description	Optional?
PROVIDER_PART	This table maintains information detail about the PERSONs associated with a provider (other than children in placement) about whom DHFS is required to collect and maintain information. Provider participants are associated only with Adoptive and Foster Homes. The PROVIDER PART record is created in PM04a (Licensing Home Provider) and updated in PM02a (Maintain Home Provider).	
PROVIDER_PART_STAT	Documented changes in status of Provider Participants. Example: Active & Inactive.	
PROVIDER_SERVICE	This table maintains information associated with SERVICEs and their association to a PROVIDER ORG, such as a foster home or group home or facility, including cumulative counts of resources such as bed counts by service and provider as needed. Information maintained in Provider Service will also support worker services such as sexual abuse counseling and adolescent counseling provided by authorized workers. Records are created and updated by the following topics: PM02a/b (Maintain Home/Private Provider), PMO6 (Reservation), SM10a (Out of Home Placement), and PM04a (Licensing Home Provider).	
PRVD_SRVC_LCNS	This table stores PRVD SRVC LCNS information. This is a unique combination of the Provider and their licenses and the services offered by their license(s). Processes of SM04a (Licensing Home Providers) build and maintain this information.	
PRVD_SRVC_RATE	The PRVD SRVC RATE table maintains history information for daily and monthly rates of all the services available from a certain provider organization. Processes of PM01 (Maintain Services) build and maintain this information.	
RATE_SETTING	The Rate_Setting table stores information related to foster care rate setting according to the guidelines on the CFS-834 Foster Care Uniform Rate Setting text template.	Yes
REFERRAL	Request for external provider services for a person (Case Participant). The need for a REFERRAL is triggered by an action on the part of an external agent such as a Court that issues an Order of Temporary Custody, or by a Worker who determines that a CASE PARTICIPANT needs a particular SERVICE other than Child Protective Services (unit, Community Provider, other resource). Every REFERRAL is created by a WORKER and recorded as an event. REFERRAL table contains identification information regarding Voluntary Services Referrals such as source, address information, approval information. SM01b (Services Intake) and SM03 (Information and Referral) build and maintain referral records.	
REPL_DELETE	The REPL_DELETE table is used to record row deletes within the master WiSACWIS database.	
REPL_LOG	The REPL_LOG table is used to log the start and stop times for each county's replication.	
RISK_ASSESSMENT	This table documents risks associated with a child being maintained in their biological home.	
SAFETY_ASSESSMENT	This table contains information associated with the safety assessment window pertaining to a child's safety.	
SAFETY_PLAN	This table holds the information associated with the Safety Analysis and Plan such as current safety factors and family conditions and safety services that are being provided.	
SAFETY_PLAN_ITEM_DETAIL	This table holds the information associated with the Safety Analysis and Plan details. Each Safety Analysis and Plan can have one or more Details pertaining to what service is going to be provided to a participant, what the frequency of the service is and who will provide the service.	

Table Name	Description	Optional?
SAFETY_PLAN_OH	This table holds the information associated with the Out of Home Safety Plan such as jurisdiction, placement and placement safety issues.	
SCHOOL	The SCHOOL table contains address and contact information on all schools known to DHFS or the county agency. Information is created and maintained by processes of SM07a (Education).	
SERVICE_RATE	This table houses the rate(s) information associated with Service Types. This information is created and maintained in PM01 (Maintain Services).	
SERVICE_TYPE	SERVICE TYPE table maintains information associated with any defined category of provider service offered by DHFS or the county organization including training requirements, standard rate (across all provider organizations) and license requirements etc., associated with providers. Processes of PM01 (Maintain Services) and WiSACWIS table maintenance build and maintain this data.	
SPECIAL_NEEDS	The SPECIAL NEEDS table maintains information about adoption related special needs of a child. Processes of SM15 (Special Needs) build and maintain this information.	
STREET_TALK	This table holds the cross reference between the network logon and the WiSACWIS Worker ID.	Yes
TICKLER	Ticklers are an electronic notification to WiSACWIS workers of tasks to be completed by a certain time. The TICKLER table maintains information about all ticklers and alerts in WiSACWIS. CM04 (Ticklers) creates tickler information.	Yes
TRUST_ACCOUNT	The TRUST_ACCOUNT table maintains a total of the child's savings balance and personal needs balance. Processes within FM07 (Trust Account) maintain this information.	
TRUST_ACCOUNT_INTEREST	The TRUST_ACCOUNT_INTEREST table is used by the Trust Account Manager to post accrued interest to the trust accounts for each child. Processes within FM07 (Trust Account) maintain this information.	
TRUST_ACCOUNT_LEDGER	The TRUST_ACCOUNT_LEDGER table is used by the Trust Account Manager to maintain a complete history of all debit and credit transactions for a particular trust account. Processes within FM07 (Trust Account) maintain this information.	
UNMET_NEEDS	The UNMET NEEDS table stores information about services needed for case processing but currently unavailable at DHFS. It documents the nature of need and cause of unavailability. Processes of SM15 (Special Needs) creates this data.	
WORKER	The WORKER table maintains information pertaining to an individual (PERSON) who is employed by a county or DHFS and is in a job class that provides services and/or a job class that receives WiSACWIS-defined work assignments. The information is created in CM18 (Manage Worker).
