Critical Data Elements Defined

Reimbursement Category:

IFC_REIMBURSMNT_CATGRY <i><u>Char(2)</u></i>	Decoded Value
1	Group Home
2	RCC
3	Adoption
4	Kinship Care
5	Foster Home
6	Other
7	Institutions
9	Sub Guard
10	Shelter
11	Detention
12	Trial Reunification
13	Supervised IL
14	Missing from OHC
15	Treatment Foster Care

Target Population:

IFC_TARGET_POP <i><u>Char(5)</u></i>	Decoded Value	Youth Aids?	Target Group
1	CHIPS - Other	NYA	64
2	CHIPS - Abuse and Neglect	NYA	61
3	Delinquency	YA	6
4	Voluntary Placement	NYA	64
5	JIPS	YA	6

Payment Type:

IFC_PAYMENT_TYPE <i>Char(02)</i>	Decoded Value
1	Basic
2	Supplemental
3	Exceptional
4	Admin
7	Overpayment Adjustments

Note: Payment Requests will function as follows:

If PAYMENT.AM_RQST <> AM_BASIC + AM_SUPPL+AM_EXCPT +
AM_ADMIN Then IFC_PAYMENT_TYPE = '04'

Note: Overpayment Adjustments will be determined as follows:

If IFC_SIGN= '-' and the payment comes from PAYMENT_ADJUST table then
IFC_PAYMENT_TYPE= '07'.

Payment Subcode:

IFC_PAYMENT_TYPE <i>Char(02)</i>	IFC_PAYMENT_SUBCODE <i>Char(1)</i>	Decoded Value
3	A	Exceptional Costs
3	B	Costs > Spending Limit
4	A	Administrative Costs
4	B	Extraordinary Payment

Note: We transmit both "Exceptional Costs" and "Costs > Spending Limit" payments as Payment Type '3'. This additional coding ("A" for Exceptional, and "B" for Costs > Spending limit) will allow counties to differentiate between the two and appropriate them correctly in their accounting systems if desired.

Note: We also intend to transmit the extraordinary payment as a Payment Type '4'. This extra coding ("A" for Administrative Costs, and "B" for Extraordinary Payments) will help counties to differentiate between the two.

Example Cross-walk or recode table

The following pages contain a sample illustration of how one might go about cross-walking data from the check-write file to the County's General Ledger Account. This is only a sample, and is drawn out at a very granulated level. It is NOT a requirement that a county break their accounting structure down to this level.

For example, the sample below breaks out Foster Care costs from Treatment Foster Care costs. Unlike this sample, a county could choose to have Foster Care and Treatment Foster Care come out of the same account. This would alleviate the need for the break-down between these two genres of placement types.

Even more, a county could decide that all Payment Types with a particular placement genre can come out of one account. This would alleviate the need to break-down by Payment Type.

Note: Please **do not** use Reporting Category 8 in your cross walk. This is the default Reporting Category when a new Service Type is created.

Non-Youth Aids Subcare

County to WiSACWIS - Return Interface Check Printed File Extract

The final stage of the Financial Interface is to return the check number and check date back to eWiSACWIS. These check numbers will correspond with the checks that were sent over by the check-write file for a given Voucher number.

File Name: fm02-chk-printed-{*county code*} (File Length 45 Char)

Checks Printed Record Layout

DOA Extract Record	Type
PP-VOUCHER-NUMBER	Char X(5)
PP-VOUCHER-TYPE-CODE	Char X(2)
PP-VOUCHER-DATE	Char X(10)
PP-PAYEE-ID	CHAR X(10)
PP-CHECK-NUMBER	CHAR X(8)
PP-CHECK-DATE	CHAR X(10)

Example of output text file:

060125109/24/201000061619429000010210/07/2010
060125109/24/201000061619489000010410/07/2010
060125109/24/201000080058469000010710/07/2010

Note: The VOUCHER-TYPE-CODE returned should be the two digit county code.
