RE: Child Information for Medical Coverage as a Foster Child

The Department of Children and Families, and the Division of Milwaukee Child Protective Services are committed to improving the access to quality health services for foster children in Milwaukee County.

This letter verifies coverage for the foster child listed below. The majority of children entering care already have Medicaid coverage; however, in some cases, the child is not enrolled, or enrollment cannot be verified. In these cases, the Wisconsin Department of Children and Families guarantees coverage because all children taken into foster care are eligible under Title 19.

We understand that not having the number or card is not efficient for providers, as you may have to hold claims for a few days before billing Forward Health to allow time for the recipient eligibility manual record to update the Medicaid master file. We apologize for the inconvenience. Medicaid coverage is usually processed within 72 hours. If you do not find the child has been enrolled within that period, please call Forward Health Member Services at 1-800-362-3002 between the hours of 8:00 a.m. and 6:00 p.m. Monday through Friday.

We thank you for fulfilling your legal obligation to provide medical services for our community's most vulnerable children. If you have questions, please call the numbers noted above.
