

Child and Family Services Review

Purpose

A CFSR provides the opportunity to center the Department of Children and Family's (DCF) vision that all **Wisconsin children and youth are safe and loved members of thriving families and communities.**

Wisconsin will identify strengths and areas needing improvement within its agencies and programs to improve child welfare services, promote this vision and achieve the **seven child and family outcomes** (page 3).

Evaluation of **seven systemic factors** will determine whether existing systems promote these positive child safety, permanency and well-being outcomes.

Goals

Ensure conformity with federal child welfare requirements.

Determine **what is happening to children and families** as they are engaged in child welfare services.

Assist states in helping children and families **achieve positive outcomes.**

What is a Child and Family Services Review (CFSR)?

An opportunity for states to work collaboratively with external partners, including those with lived experience, to evaluate data and evidence to identify child welfare system strengths and challenges with the overall focus on system improvement.

After a CFSR is completed, states develop a Program Improvement Plan (PIP) to address areas in their child welfare services that need improvement.

This will be Wisconsin's **4th Round** of the CFSR process.
