Statement from Department of Children and Families Secretary Anderson

MADISON – Wisconsin Department of Children and Families Secretary Eloise Anderson commends Governor Walker's appointment of Elizabeth Hudson as Director of the newly created Office of Children's Mental Health.

“Governor Walker has shown great wisdom in the appointment of Elizabeth Hudson. Elizabeth is a leading expert in children's mental health and the important field of Trauma Informed Care. Her work with the Department of Children and Families has helped us develop better ways of offering services to trauma survivors and given us another tool in fighting the generational cycle of child abuse and neglect. I congratulate Elizabeth on becoming the director of this vital new Office, and eagerly anticipate working with her towards improving the mental health and well-being of children throughout Wisconsin.”
