Grow your business through DCF employment programs

(MADISON) – Learn how the Wisconsin Department of Children and Families (DCF) can help you grow your business at the Governor's Northern Economic & Community Development Summit, October 25-26, 2017, in Trego, Wisconsin.

The two-day informative summit is devoted to community and economic development in Northern Wisconsin and includes dynamic breakout sessions with state and local experts, as well as one-on-one and small group discussions with Cabinet Secretaries.

Attendees will gain insight from Secretary Eloise Anderson on how DCF can help connect your business to a trained and energized workforce through DCF's subsidized Transitional Jobs Program and the various Wisconsin Works (W-2) programs.

[Register](#) for this year's event and help your business thrive in today's economy.
