Introducing MyWIChildCare from Wisconsin Shares.

A better way to get paid for child care services.

Getting paid for providing child care services is about to get faster and easier for child care programs. Soon parents will have the power to pay their child care provider directly. How will it work? Every month, parents will receive their state child care subsidy on an EBT card that's only good at Wisconsin child care programs participating in the YoungStar program. So providers can count on a state-secured payment from parents that can be accepted in person, online, or even over the phone. MyWIChildCare is that easy.

If your program serves families that participate in Wisconsin Shares, get ready. Parents will start receiving MyWIChildCare cards in fall 2016. For more details, call 1-877-201-7753 or visit mywichildcare.wi.gov.
