Introducing MyWICChildCare

A new way for parents to pay for child care
from Wisconsin Shares

Wisconsin is improving how parents pay for child care services with MyWICChildCare. How does it work? State child care subsidies are placed onto an EBT card every month, which allow parents to pay for child care their way—whenever their provider’s monthly or weekly payments are due, using the payment option that’s best for them: in person, online or over the phone. MyWICChildCare is that easy. And, help is always just a phone call away at 1-877-201-7601.

If you’re a parent who participates in Wisconsin Shares, get ready. Your MyWICChildCare card will arrive automatically along with easy, step-by-step activation instructions, beginning in fall 2016.
