The Department of Children and Families is an equal opportunity employer and service provider. If you have a disability and need to access services, receive information in an alternate format, or need information translated to another language, please contact the Bureau of Early Care Regulation at dcfcclireg@wisconsin.gov or 608-421-7550. Individuals who are deaf, hard of hearing, deaf-blind or speech disabled can use the free Wisconsin Relay Service (WRS) – 711 to contact the department.

Background

The Registry collects educational information on child care providers and early childhood staff. Since the implementation of the YoungStar (YS) Quality Rating System in 2011, this information has been brought into the YS Case Management System from the Registry on a daily basis. In February 2018, this information was also added to the Child Care Provider Portal (CCPP). In October 2018, this information was added to WISCCRS.

The Registry information can be found in the left-side navigation menu in WISCCRS for staff who have been pulled into the WISCCRS Individual module and who are associated with a licensed/certified program.

Staff attached to multiple sites

If an employee works in multiple sites, the Registry information is viewable under the site that the employee is attached to in the Registry System.

Employee moves from Facility A to Facility B

If an employee with a Registry profile is attached to Facility A and then applies for a position in Facility B, the Registry information does not automatically move over to Facility B in WISCCRS. Using the Registry portal, Facility A must first end date the employee at their center. After that, using the Registry portal, Facility B can pull the employee into their center. WISCCRS is updated the day after the change is made in the Registry portal.

Registry Details

This page displays the program profile of the director and a list of classrooms for a provider location. The data is updated by a nightly batch and accurate as of yesterday.

Director Details

The Director Details section shows the name of the director, the date the person assumed the role as the director, Registry Level, and the Registry ID.
