[Operations Memo BRP 22-02 / BWF 22-06](#)

EFFECTIVE DATE: May 24, 2024

PURPOSE

This memo communicates the updates to the Wilson Fish tab in the Wisconsin Work Programs (WWP) system made to better document the priority needs and the activities/services requested by Wisconsin Works (W-2) participants who are refugees or Office of Refugee Resettlement (ORR)-eligible populations enrolled in the Wilson-Fish TANF Coordination Program (WFTCP).

BACKGROUND

As detailed in [Operations Memo BRP 22-02 / BWF 22-06](#), new functionality was added to the WWP application. This addition, in the form of a tab (Wilson Fish) on the WWP Participant Summary page, plays a crucial role in supporting the WFTCP. The fields in the Wilson Fish tab are specifically designed to document the enrollment and foundational case management activities/services provided to participants in the WFTCP.

The new functionalities in WWP, outlined in this memo, were deployed on May 24, 2024, and enhance the existing functionality incorporating elements of the case management methods used by Refugee Program Liaisons (RPLs) with W-2 participants enrolled in the WFTCP, including:

- The best practices of the WFTCP foundational case management framework (Transition-To-Success); and
- Elements of the Family Self-Sufficiency Plan (FSSP) policies that DCF's Bureau of Refugee Programs (BRP) requires its Refugee Support Services (RSS) partners to follow and report on.

BRP will monitor the Wilson Fish functionality until December 31, 2024. Based on its use and acceptance, the Bureau may make additional changes to ensure the updated functionality can be used to document enrollment and foundational case management activities/services provided to eligible participants in other W-2 programs.

WISCONSIN WORK PROGRAMS (WWP)

UPDATED FUNCTIONALITY IN THE WWP APPLICATION – THE WILSON FISH TAB

Roles

RPLs and other designated W-2 agency staff with experience working with refugees and other ORR-eligible populations can use the fields in the Wilson Fish tab in WWP to assess the specific needs of W-2 participants enrolled in the WFTCP.

Rules

The Wilson Fish tab is to be used in the case management of W-2 program participants who hold one of the following immigration statuses (ORR-eligibilities):

- Refugee
- Asylee
- Victim of Human Trafficking
- Amerasian
- Cuban Entrant
- Haitian Entrant
- Special Immigrant Visa (SIV) recipients from Afghanistan and Iraq
- Eligible Afghan Humanitarian Parolees and Ukrainian Humanitarian Parolees

Refer to [ORR status and documentation requirement for the ORR Refugee Resettlement Program](#) for further information about ORR eligibilities.

Overview

In addition to several existing fields in the Wilson Fish tab, this change adds fields that designated staff at W-2 agencies can use to:

- Document whether the ORR-eligible W-2 participant was provided Job Referrals and/or Job Preparedness Services by the W-2 agency;
- Further clarify the ORR-eligible W-2 participant’s resettlement situation – especially their connection to a local Resettlement Agency;
- Clarify the ORR-eligible W-2 participant’s native language and the W-2 staff’s need for interpretation; and
- More thoroughly document the ORR-eligible W-2 participant’s priority supportive service needs.

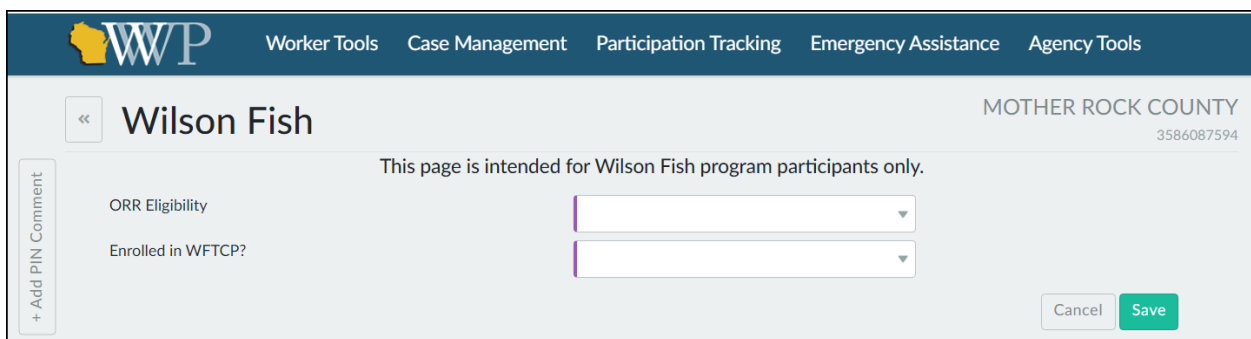

UPDATED WWP FUNCTIONALITY – THE WILSON FISH TAB

To use the Refugee tab, click on the Case Management option, then select the Wilson Fish “Fish” icon (pointed by the yellow arrow):

When this tab is selected, the first section displays.
