Good Morning,

Thank you to those who were able to attend the live training workshop, *A Trauma Informed Lens: Conversations with Domestic Violence Survivors* led by the Sojourner Family Peace Center on November 11.

This training opportunity was recorded. For ease of access to the workshop materials, the video and power point slides will be posted the BWF Work Programs Help Desk Home Page under the "LIFE Program Documents" tab.

BWF encourages all workers who will be working on the Living Independently through Financial Empowerment (LIFE) program to view the workshop. Any additional Wisconsin Works (W-2) or Emergency Assistance (EA) workers who will benefit from this workshop are also welcomed to view the recorded training workshop.

*A Trauma Informed Lens: Conversations with Domestic Violence Survivors* focuses on:

- Understanding trauma-informed conversations when working with domestic violence survivors
- Applying what we’ve learned from domestic abuse survivors to trauma-informed conversations
- Practical application of trauma-informed techniques to use with domestic violence survivors

For any questions regarding the training workshop, please contact Erin Schubert at erins@familypeacecenter.org or Kelly Smith at kellys@familypeacecenter.org.

This email will be posted to the BWF Work Programs Help Desk Home Page.
