DCF/ WISDOM/ Employment Programs/ Caseload Reports/ CL Report 01: W-2 Caseload Report [W2D]

This is an updated version of the W-2 Caseload Report which is based on BWF's new W-2 Data Warehouse. The new version produces more accurate data which leads to marginal differences in the caseload numbers in the new report compared to the old report. Specifically, the new data warehouse captures backdated data entries made by W-2 workers that is modifying records from the past, and the data is updated on a daily basis, rather than a monthly basis.

Since this report updates daily, the data displayed in the report will be current as of the previous day. For example, if you run the report on January 18, 2018, the report will capture all data entered up until close of business on January 17, 2018.
