

Changes to the report entitled: BV292 – Newly Established Claims Summary have been created and published in WEBI to the following folder location:

DCF -> WISDOM -> Employment Programs -> Collections -> Job Access Loan Reports

This report provides summary and detail information on Job Access Loans for a specific time period. It contains six tabs: 1) State Summary Report, 2) Agency Summary Report, 3) County Summary Report, 4) Office Summary Report, 5) Detail Report, and 6) Detail Report Uncategorized (new). Users can now also select data for specific agencies in an optional prompt. Note that if specific agencies are selected in the prompts, only data for that agency will display in each tab of this report. A new tab in the report entitled: Detail Report Uncategorized has been added. This report shows the same claim details as the original Detail Report, but in the format of a full list not divided into sections of county or office. These changes were requested by the Department of Children and Families Program Operations Section.

A new report entitled: Job Access Loan Reasons Report has been created and published in WEBI to the following folder location:

DCF -> WISDOM -> Employment Programs -> Collections -> Job Access Loan Reports

The Job Access Loan Reasons Report provides summary and detail information on the reasons why Job Access Loans (JALs) are requested. Users can select specific time periods and agencies. Because a JAL can be requested for more than one reason, data on JAL reasons is presented two different ways: single and combined. The JAL Reasons Report has four tabs. The JAL Single Reason Report tab shows the percentage of each JAL single reason. The JAL Combined Reason Report tab shows counts of JAL claims made for each possible reason or combination of reasons. The JAL Combined Reason Detail Report tab shows the details of each claim by county and office, including the reason(s) for the claim. The JAL Combined Reason Detail Report Uncategorized also shows these claim details, but in the format of a full list not divided into sections of county or office.
