

The following document presents all changes to the FReD Reports in WEBI and what information is contained within each report.

FReD WEBI Reports – April 2015

FReD Report 01 – Work Participation Rates

This report combines all 01 Reports except FReD report 01A. This report provides TANF work participation rates at the various levels of service – State, Contract Agency, County, WP Office and Worker by month.

FReD Report 01A – Work Participation Detail

This report provides the details of a participant's TANF work participation in a given month by worker, WP office, County and Agency. There are 2 tabs, the first for the All Families Rate and next for the Two-parent Rate. The report lists a participant's required hours of participation, participant's hours of participation in the period, lists any removal reason if the participant is excluded from Work Participation Rate calculation and checks if the participant met the required Work Participation rate for the type of family.

FReD Report 02 – Federal Fiscal Year Work Participation Rates

This report combines all 02 Report. This report provides TANF work participation rates at the various levels of service – State, Contract Agency, County, WP Office and Worker by month for selected Federal Fiscal Year.

FReD Report 03 - Individual Participation Detail Report

This report provides details of an individual's participation in TANF work activities in a given month. The report shows placement in work activities, scheduled hours, hours of non-participation, the work participation code associated with the level of participation and if the individual met the all families participation rate. The report also indicates whether an assigned activity is core or non-core or a time-limited activity.

FReD Report 04 – Individuals Disregarded – Youngest Child Less Than 1 Year

This report tracks the number of months a single custodial parent with the youngest child under 12 months of age is disregarded from the work participation rate because of the child's age. Note: Individuals who are disregarded from the work participation rate are not included in the denominator.

FReD Report 05 – Participants Sanctioned in the Last 12 Months

This report tracks the number of months a case was disregarded from the work participation rate in a 12-month period due to sanctions. It lists all participants who have been sanctioned in the previous 12-month period by pin, the number of sanctions in the period, WP worker and the participants work participation status.

FReD Report 06 – Job Search Reported in the Last 12 Months

This report tracks the number of hours of Job Search and Job Readiness assistance a participant used in the previous 12-month period. This is a time-limited activity. The limit is 240 hours for a single custodial parent with child under six years of age and 360 hours for all other work-eligible individuals.

FReD Report 07 – Vocational Education Training Months Reported

This report tracks the number of months a participant has engaged in Vocational Education Training activities since the beginning of TANF. This activity is limited to 12 months in a lifetime for each participant.
