

The maintenance on the TMJ/TJ reports and caseload reports is not yet complete. Another notification will be released when maintenance has been completed and validated.

Original notification released on Wednesday, October 3:

Starting at 11 AM tomorrow (October 4, 2018), maintenance will be performed on TMJ/TJ reports and any caseload reports with activities. FReD and RP740 reports will not be impacted by the maintenance. Maintenance is expected to be completed on Friday, October 5, and another notification will be released when maintenance has been completed and validated. Please do not run any TMJ/TJ reports and any caseload reports with activities until the notification has been released, as data may not be accurate while maintenance is being performed. Thank you for your patience and understanding while maintenance is being performed.
