Track 1 – Family Child Care¹

Quality Rating and Improvement System Overall Model

Programs not in regulatory compliance would not be able to earn points in YoungStar until coming into compliance with licensing and certification.

It is imperative that Wisconsin improve the quality of child care. YoungStar assists Wisconsin child care providers to improve their quality leading to a critically important result of improving outcomes for children. YoungStar is based on research and other states' experiences to establish criteria that are: research-based, objective, and verifiable on a regular basis.

This document describes the categories for earning points in YoungStar. Each child care provider can earn up to forty points across four categories – education, learning environment and curriculum; professional and business practices; and health and wellness. There are required points in each of the categories as well as additional optional points programs may accumulate.

The following chart shows the overall categories and the points possible in each.

Category for Earning Points	Possible Points
Family Provider Qualifications	0-14
Learning Environment and Curriculum	0-14
Business and Professional Practices	0-7
Health and Wellness	0-5
Total	0-40 points

¹ This track includes licensed family, certified family, and provisionally certified family providers.

Accreditation: Alternative Path to Four or Five Stars

YoungStar offers an alternate path to a 4 Star or 5 Star rating for accredited providers, specifically for the National Association for Family Child Care (NAFCC) accreditation, and the City of Madison-Satellite accreditation. The rationale for accepting NAFCC and City of Madison-Satellite accreditations as equivalent to a 4 Star or 5 Star rating is that the standards used in these accreditations are nationally recognized as linked to quality and each accreditation requires on-site observations and verification of similar characteristics laid out in YoungStar. However, they do not require any credit-based education beyond high school. For this reason, a family child care provider who has either accreditation could receive a four-star rating. With verified credit-based education, family child care providers could qualify for a five-star rating.

A) Education and Training of Provider (Maximum Points = 14)

In family child care, one individual often serves in both the administrative/business role and the teaching role. For this reason, YoungStar combines the teacher and administrator qualifications. Research from the [Wisconsin Child Care Research Partnership](#) in 2002 noted that at least one-fifth of a random sample of Wisconsin family child care providers had a two-year or four-year degree.

Provider education is considered one of the most [consistent predictors of quality in an early childhood setting](#). Staff and provider early childhood education and school-age education qualifications will be entered into an Organizational Profile within The Wisconsin Registry. [The Registry](#) is Wisconsin's recognition system for the childhood care and education profession. The Registry verifies educational qualifications using credit-based instruction transcripts. All training is quantified by core knowledge areas as defined by the National Association for the Education of Young Children (NAEYC) or CDA content areas as defined by the Council for Professional Recognition. The Registry awards a certificate verifying that entry level and continuing education requirements defined by the Department of Children and Families have been met.

When a program has more than one individual listed in their Program Profile, the training (but not the education) of either individual will be counted when awarding YoungStar points for the following indicators: Wisconsin Model Early Learning Standards Training (B.2.1), Social Emotional/WI Pyramid Model/Inclusion Training (D.1.3), and Strengthening Families/Darkness to Light Training (D.1.4).

To be qualified to be listed in the Program Profile, the individual needs to be in the assigned for at least 50% of the time that the program is open (up to 40 hours per week). The individual could be listed as any of the following in the Program Profile: Other Teacher, Teacher, Assistant Teacher or Assistant School-Age Teacher. The educational level of these individuals that are listed as something other than the Lead Teacher will not be counted for YoungStar points. The method of awarding points for the education of the Lead Teacher will remain the same.

For example, if the Other Teacher in a program has taken the Wisconsin Model Early Learning Standards (WMELS) but the Lead Teacher has not, the program would be given credit for that classroom having met the requirement for WMELS training.

Verification of Staff: Before approving a rating, the Technical Consultant will visit the program and must see the person who is listed as the Provider in the Program Profile teaching in that program. If a Technical Consultant does not see the Provider that is listed in the Registry Program Profile, a Technical Rating will not be completed and the program will be ineligible for a Formal Rating until the information can be verified. Further proof may be required in the form of time sheets or pay stubs. (Maintaining Your Registry Profile Policy, Updated 1/1/2016.)

Professional Development Opportunities: Information about early care and education and school-age education credit-based course offerings can be accessed by contacting the individual institution of higher education directly, or by contacting a Professional Development or T.E.A.C.H. Early Childhood® Wisconsin Scholarship Counselor at the Wisconsin Early Childhood Association. Credit for prior learning experience may be offered through individual institutions of higher education. Further information related to The Registry Career Levels, professional development opportunities, and credit for prior learning experience is available in the appendix of this document.

In the following chart for family child care providers, the points are not cumulative. A provider receives credit for the highest level of education attained. If a Provider's Registry Level falls in between two point levels, the Provider

will be awarded the points for the lower of the two levels. For example, if a Provider is at Registry Level 8, she would receive 3 points because her Registry Level is higher than the requirement at the 3 point level but did not meet the requirement at the 4 point level.

Any time a related Associate's degree is referenced in this document, 60 credits beyond high school with 30 of those credits related to early childhood or school-age care would be accepted as equivalent to the related Associate's degree.

Professional Development Opportunities for Credit Based Instruction:

For those interested in taking credit based college coursework in early childhood education, the most up-to-date information on options available – including both traditional and non-traditional routes (including online, weekend and evening courses, and accelerated programs) – is by contacting the institution of higher education directly. Another option is to contact a T.E.A.C.H. scholarship counselor at Wisconsin Early Childhood Association: phone 1-800-783-9322, ext. 7240 or email teach@wisconsinearlychildhood.org . You may want to inquire about scholarship eligibility as well.

To assist you, the [WECA website](#), offers T.E.A.C.H. program information. All Wisconsin Universities and Colleges are shown on the [map](#) provided by WECA. The WECA website also houses a T.E.A.C.H. online directory of course offerings within the Wisconsin Technical College System.

Professional Development Counseling Support opportunities are also available through the Wisconsin Early Childhood Association.

Credit for Prior Learning and Experience:

Institutions of Higher Education may offer credit for prior learning and award degree credit(s) to individuals who can demonstrate relevant skills and knowledge that they have previously acquired through non-traditional schooling, work or other life experiences. Credit for Prior Learning (CPL) can help child care teachers and child care providers ease into the higher education system. In Wisconsin, each college has its own process of evaluation established. The process requires the teacher/provider to document relevant experiences. Examples include: Training completion certificates, portfolio development that reflects work experiences and transcripts if available. T.E.A.C.H. scholarship counselors are available to help connect individuals to the early childhood program area that supports this work at each Institution of Higher Education.
